Super Tan[®] Wet Tantalum Capacitors with Hermetic Seal

FEATURES

- (Sn/Pb) • Terminations: Standard tin/lead 100 % tin (RoHS compliant) available terminations:
- Very High Capacitance
- 10 to 1800 μF
- 25 to 125 VDC
- 55 °C to + 125 °C
- Very Low ESR
- High Ripple Current
- All Tantalum Case
- Hermetically Sealed
- Low DCL
- Compliant to RoHS Directive 2002/95/EC

APPLICATION NOTES

a) No continuous reverse voltage permissible.

- b) The peak of the applied AC ripple and the applied DC voltage must not exceed the DC voltage rating of the capacitor.
- c) Ripple current ratings by part number at 85 °C and 40 kHz are included in the table. Ripple current correction factors for other temperatures and frequencies are given on the next page.
- d) Transient reverse voltage surges are acceptable under the following conditions:

The peak reverse voltage does not exceed 1.5 V and the peak current times the duration of the reverse transient does not exceed 0.05 ampere seconds. In addition, the repetition frequency of the reverse voltage surge is less than 10 Hz.

No

impedance restrictions.

Vishay ST represents a major breakthrough in wet tantalum capacitor technology. Its unique cathode system provides

the highest capacitance per unit volume. The design facilitates a doubling of capacitance, lower ESR and higher

ripple current rating compared with conventional wet

tantalum products. Moreover, the ST has the capacitance

stability of a solid tantalum capacitor and there are no circuit

The ST is housed in an all tantalum, hermetically sealed case

and is manufactured to withstand hazardous environments.

The ST is used widely in the defense and aerospace

industries and whenever there is a space problem

DIMENSIONS in inches [millimeters]

3. Tinned nickel leads, solderable and weldable

* Pb containing terminations are not RoHS compliant, exemptions may apply

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and/or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk and agree to fully indemnify and hold Vishay and its distributors harmless from and against any and all claims, liabilities, expenses and damages arising or resulting in connection with such use or sale, including attorneys fees, even if such claim alleges that Vishay or its distributor was negligent regarding the design or manufacture of the part. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
