## Model #: B054-001-PS2

### KVM Switch Accessories - PS/2 Server Interface Module for NetDirector Matrix KVM Switches

#### Highlights

- Needed to connect a PS/2 Server to the B060 and B064-Series NetDirector Matrix KVM switch via Cat5e cable
- Easy to install; no software needed
- Allows a maximum distance of 500ft from KVM to Server via Cat5 cable
- Compact and lightweight design

#### Description

Tripp Lite's PS/2 Server Interface Module connects to the PS/2 ports on a Server, and converts them to a single RJ45 connector. Ordinary Cat5e patch cables can then be used to connect the server to the switch ports on the Tripp Lite B060 and B064-Series NetDirector Matrix KVM switch. Use of Cat5e cables frees up space in the server cabinet that would be filled by traditional, thicker KVM cables.

#### System Requirements

- Server or CPU with a HD15 connector and (2) PS/2 type connections
- A B060 and B064-Series NetDirector Matrix KVM Switch
- Cat5e/6 cable; up to 500ft when used with a B060 series KVM

#### Package Includes

- 1 PS/2 Server Interface Module

#### Features

- Eliminates the need for thicker, heavier KVM cables
- Compact, lightweight design
- Plug and Play; no software required
- No power supply required
- Allows a Server/CPU to be located up to 500ft away from the KVM switch

#### Specifications

OVERVIEW	
Application	Connect a computer/server to a B060 or B064-Series NetDirector KVM Switch using Cat5e cable
Model Type	Interface Modules
CONNECTIONS	

Connector A

RJ45 (FEMALE)
