FX8, FX8C Series

FX8 Series

FX8C Series

Note that FX8 series and FX8C series are not mated with each other.

■Features

1. Stacking Height 3mm to 16mm available

The board to board stacking height can correspond to 3mm~16mm.

2. SMT Coplanarity

The coplanarity of the SMT solder area lead is maintained at the high accuracy of less than 0.1mm.

3. Mating Guide

The very small and guide rib is provided, and secures $\pm 0.6\text{mm}$ self-alignment, considering the mating operativity into accounts.

4. Mis-insertion Prevention

The boss prevents mis-insertion in the board to cause due to the boss position and boss diameter.

●Stacking Height 3,4mm-FX8 Series

●Stacking Height 5 to 16mm-FX8C Series

If the inside (the connector mounting lower side) of the SMT land isn't treated with the insulation tape and so on, the area is specified as a pattern prohibited area.

◆ Connector Precautions for use

1. Tolerance Clearance on Mating Side

The effective contact length of the product is set to 0.7mm. Please use the product so as to set the clearance to less than 0.2mm between the header and the receptacle in the mating process.

2. Fixation between Mounting Boards

The very low profile and compact product, so never fix the connector between boards by mating force only

3. Stacking Height Tolerance for Mating

Stack 3mm	3 $\begin{smallmatrix} +0.3 \\ -0.2 \end{smallmatrix}$ mm
Stack 4mm	4 $\begin{smallmatrix} +0.3 \\ -0.2 \end{smallmatrix}$ mm

Note: Please Note that the above stacking tolerance doesn't include the solder paste thickness.

4. Mounting Temperature Profile (Reference)

HRS test conditions

Test board Glass epoxy 161mm×100mm×1.6mm thick
Solder method :Reflow
Solder composition :Paste,
96.5%Sn/3%Ag/0.5%Cu
Metal mask : 0.15mm thick
Reflow cycles : 2 cycles

The temperature profile is based on the above conditions.

In individual applications the actual temperature may vary, depending on solder paste type, volume/thickness and board size/thickness. Consult your solder paste and equipment manufacturer for specific recommendations.
