Product:	Micropax Connectors	Part Numbers Concerned:	See list attached
Product Manager:	David Hansen	Issue Date:	11 July 2007
		Page(s):	1/1
Distribution:	GLOBAL		

Subject:

Micropax Connectors; Resin Change on Pickup Caps

Nature of Change:

FCI is upgrading the plastic used on pickup caps for some Micropax part numbers. This upgrade increases the product's heat tolerance during IR-reflow assembly processing.

Old resin used for pickup cap:

PPS 40% glass-filled; UL Rated 94V-0; Color: Black

New resin used for pickup cap:

LCP 30% glass-filled; UL Rated 94V-0; Color: Vanilla

Impact of change:

None. All Micropax connectors will continue to meet or exceed current performance specifications.

Implementation Date:

Immediate to accelerate product upgrade and increase customer satisfaction.

Affected Part Numbers:

See attached list
