Medical and Industrial

J84-2800 Series Washable Keyboard

Fully-sealed, Washable Keyboard for Medical Applications

Main Applications

Keyboards used in hospital and healthcare environments have been recognized as a highly susceptible source of cross contamination. Cherry's J84-2800 Series keyboard allows quick and easy sanitation, ensuring that infection control procedures can be carried out without disruption to patient care and without costly hardware downtime.

Key Features

Unique easy-to-wipe keytop

- No room for bacteria and infection traps
- Easy-to-clean, even between keys
- Ideal for a range of commercial anti-bacterial cleaning wipes and cloths

Clean key

- Prevents data from being sent while the keyboard is wiped down, allowing user to clean at any interval with minimal downtime
- User is notified of 'lock down mode' by flashing LEDs

Fully sealed

- Completely sealed rubber casing
- Suitable for rinsing and immersion with cleaning and disinfection fluids

Tactile keyswitch

- Extended 1.5mm key travel
- Allows comfortable data entry performance

Applications

- Areas with strict hygiene demands, including operating areas, medical carts, ward stations, intensive care etc.
