

PCN - 09 151

Issue Date: November 24 2009

Product Name:	Low Cost Dsubs and Dsub Professional			
	All Dsub (Delta D and high density) plug and socket connectors			
Product Manager:	Verghese John			
Subject:	Product Change Notification			
Distribution:	Global			
Type of Change:	Materials Change			
Change Description:	Change of Plastic Raw Material (Valox to Arnite) used in Dsub insulator			
Reason for Change:	As part of the standardisation of insulator raw material used in Dsub connectors (used in low temperature applications only) made in FCI India, and those transferred to India from FCI France, we propose to change the raw material brand used from Valox 420SE0 (PBT) 30% Glass Reinforced Flame Retarded Plastic to Arnite TV4 261SF (PBT) 30% Glass Reinforced Flame Retarded Plastic. This will also help in improving sourcing and inventory complexities. This change will have no impact on the form, fit or function of the connector. There would also be no change in the part number of the connectors affected.			
Affected Parts:	See list Attached			
Effective Date of Change:	March	01	2010	
Last Time Buy Date:	N/A	N/A	N/A	
Last Disty Return Date:	N/A	N/A	N/A	
Datasheet Attached?	N/A			
Qual/Test Data Attached?	N/A			
Samples Availability Date:	November	30	2009	
Available Alternatives?	N/A
