

PCN - 10 036

Issue Date: June 05 2010

Product Name:	Low cost Dsubs and Professional Dsubs			
	All sub groups in Dsub family			
Product Manager:	Verghese John			
Subject:	Process Change Notification			
Distribution:	Global			
Type of Change:	Manufacturing Process Change			
Change Description:	FCI introduces Palladium Nickel Alloy with Gold Flash (GXT™), as an alternate Plating Material for Dsub series. FCI has successfully implemented GXT™ plating on numerous other connector families over the past years. Consequent to this change, FCI will have the flexibility to offer both types of plating against the same specification. This will have no impact on the performance of the connector and there would be no change in the FCI part numbers			
Reason for Change:	To provide alternate plating option			
Affected Parts:	See attached list			
Effective Date of Change:	July	15	2010	
Last Time Buy Date:	N/A	N/A	N/A	
Last Disty Return Date:	N/A	N/A	N/A	
Datasheet Attached?	N/A			
Qual/Test Data Attached?	No			
Samples Availability Date:	July	15	2010	
Available Alternatives?	Yes	Gold plating option available
