TWO PHASE HALL-EFFECT SMART FAN MOTOR CONTROLLER

NEW PRODUCT

Description

The AH2984 is a single-chip solution for driving two-coil brushless direct current (BLDC) fans and motors. The device includes a Hall-effect sensor, dynamic offset correction and two complementary open-drain output drivers with internal Zener diode protection. It is optimized for low start-up voltage.

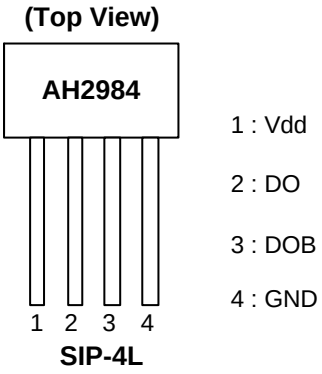
To help protect the motor coils, the AH2984 provides Rotor Lock Protection which shuts down output drives if rotor lock is detected. The device automatically re-starts when the rotor lock is removed. Over temperature shutdown provides thermal protection for the device.

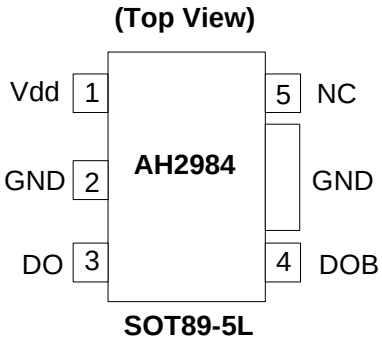
The AH2984 is available in SIP4 and SOT89-5L packages.

Features

- Single-chip solution
- Operating Voltage: 2.5V to 15V
- Built-in Hall sensor and input amplifier
- Rotor Lock Protection (Lock detection, output shutdown and automatic re-start)
- Built-in reverse voltage protection diode
- Built-in Zener protection for output drivers
- Average output current up to 500mA
- Packages: SIP-4L and SOT89-5L
- "Green" Molding Compound

Pin Assignments





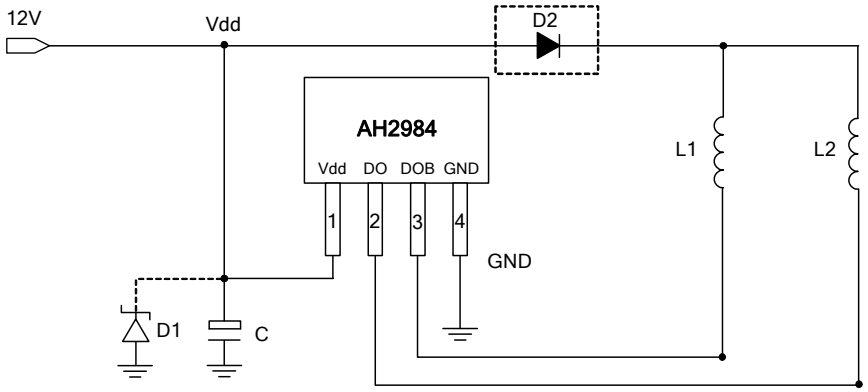
Applications

- Two-coil BLDC Cooling Fans
- Low Voltage/ Low Power BLDC Motors

NEW PRODUCT

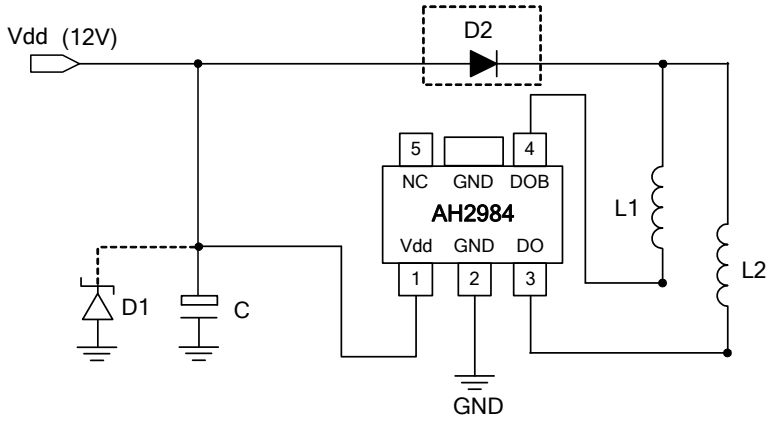
Typical Application Circuit (Note 1)

(1) For SIP-4L



12V Brushless DC Fan

(2) For SOT89-5L



12V Brushless DC Fan

Notes: 1. D1 (Zener Diode) and Capacitor C are for power stabilization. Recommended value of C is 1uF/ 50V (E-Cap).
Diode D2 is optional and helps to protect the device and fan coils from reverse power conditions. The AH2984 also includes an internal reverse blocking diode at Vdd pin.

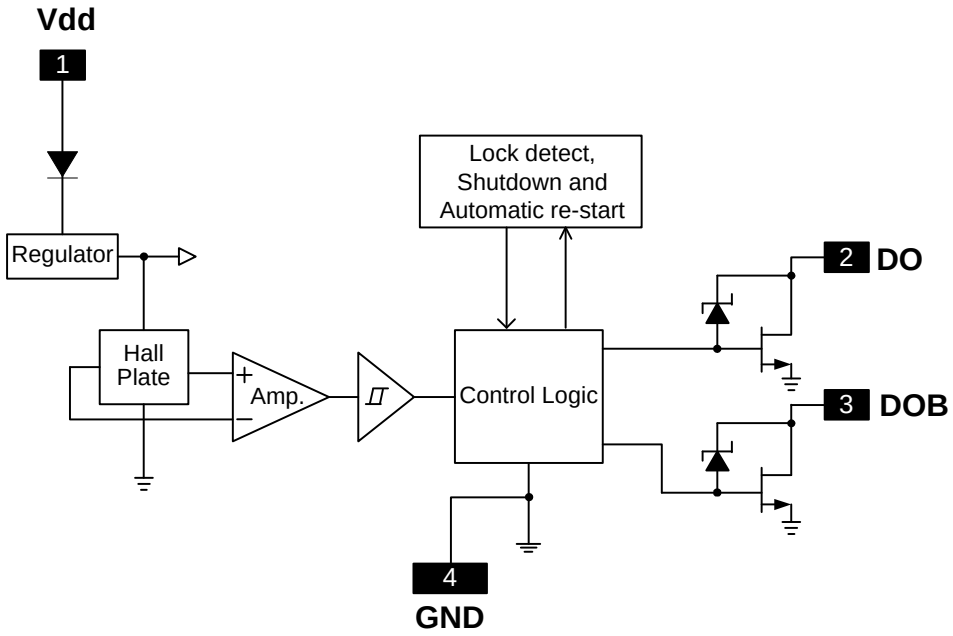
Pin Descriptions

Pin Name	SIP-4L	SOT89-5L	Description
Vdd	1	1	Input Power
DO	2	3	Output Pin
DOB	3	4	Output Pin
GND	4	2	Ground
NC	-	5	No Connection

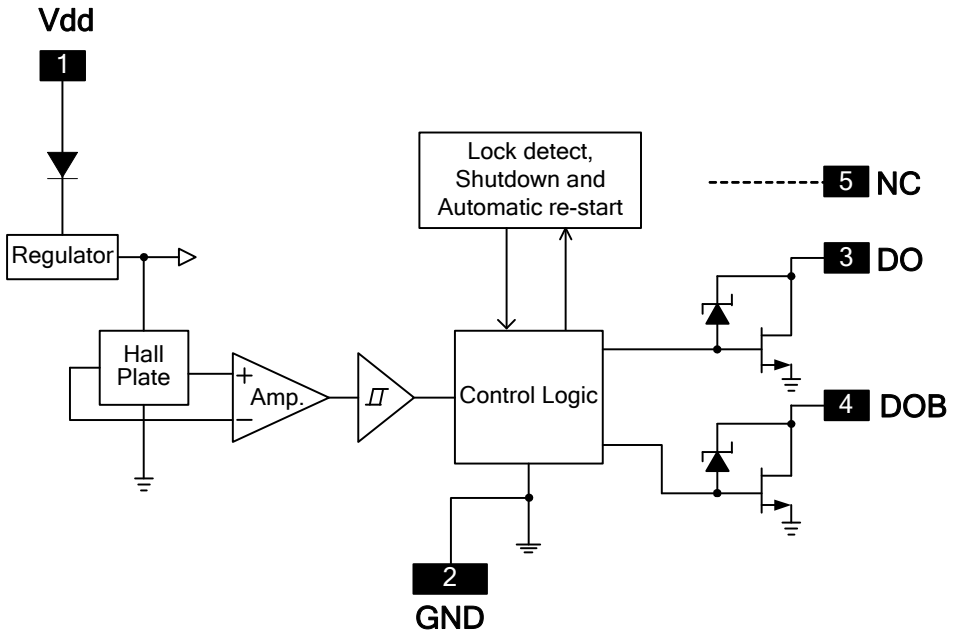
NEW PRODUCT

Functional Block Diagram

(1) For SIP-4L



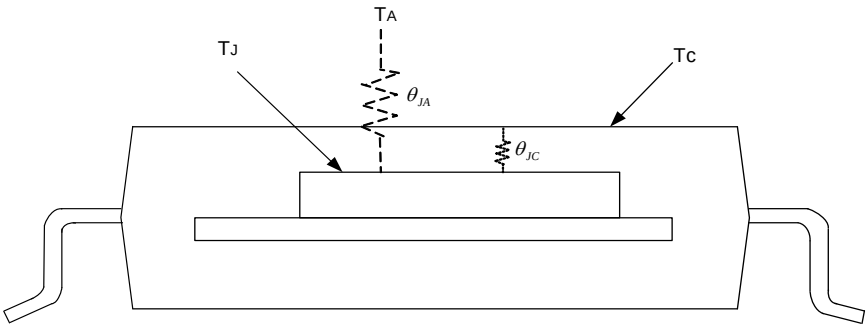
(2) For SOT89-5L



NEW PRODUCT

Absolute Maximum Ratings (T_A = 25°C)

Symbol	Conditions		Rating	Unit
Vdd	Supply Voltage		18	V
Vrdd	Reverse Vdd Polarity Voltage		-15	V
$I_{O(AVE)}$	Output Current (Note 2)		500	mA
$I_{O(peak\ as\ hold)}$			800	
P_D	Power Dissipation	SIP-4L	550	mW
		SOT89-5L	800	mW
T_{ST}	Storage Temperature		-55 ~ 150	°C
T_J	Maximum Junction Temperature		150	°C
θ_{JA}	Thermal Resistance (Note 3)	SIP-4L	227	°C/W
		SOT89-5L	156	°C/W



Notes: 2. Shall not exceed P_D and Safety Operation Area.
3. θ_{JA} should be confirmed with heat sink thermal resistance. If there is no heat sink contact, θ_{JA} will almost be the same as θ_{JC}.

Recommended Operating Conditions (T_A = 25°C)

Symbol	Parameter	Conditions	Min	Max	Unit
Vdd	Supply Voltage	Operating	2.5	15	V
T_A	Operating Ambient Temperature (Note 2)	Operating	-40	105	°C

NEW PRODUCT

Electrical Characteristics (T_A = 25°C, Vdd = 12V; unless otherwise specified, Note 4)

Symbol	Characteristics	Conditions	Min	Typ.	Max	Unit
Idd	Supply Current	Operating, Vdd=12V	2.0	3.5	5.0	mA
Ton	Locked Protection On Time		-	0.25	-	Sec
Toff	Locked Protection Off Time		-	3.25	-	Sec
Rduty	Locked Protection Duty Ratio	Toff/Ton	-	13	-	-
Rds(on)	Output On Resistance	I_O= 300mA	-	1	1.67	ohm
		I_O= 500mA	-	1.25	1.8	
Vz	Output Zener-Breakdown Voltage	(Note 4)	24	33	42	V

Notes: 4. The Vz value is in D.C voltage measurement. The Vz may vary with coils in A.C. voltage measurements.

Magnetic Characteristics (T_A = 25°C, Vdd = 2.5V to 15V, Note 5)

(1mT=10 Gauss)

Symbol	Characteristics	Min	Typ.	Max	Unit
Bop	Operate Point	5	30	60	Gauss
Brp	Release Point	-60	-30	-5	Gauss
Bhy	Hysteresis	20	60	120	Gauss

Notes: 5. The magnetic characteristics may vary with supply voltage, operating temperature and after soldering.

Diodes Incorporated and its subsidiaries reserve the right to make modifications, enhancements, improvements, corrections or other changes without further notice to this document and any product described herein. Diodes Incorporated does not assume any liability arising out of the application or use of this document or any product described herein; neither does Diodes Incorporated convey any license under its patent or trademark rights, nor the rights of others. Any Customer or user of this document or products described herein in such applications shall assume all risks of such use and will agree to hold Diodes Incorporated and all the companies whose products are represented on Diodes Incorporated website, harmless against all damages.

Diodes Incorporated does not warrant or accept any liability whatsoever in respect of any products purchased through unauthorized sales channel.
Should Customers purchase or use Diodes Incorporated products for any unintended or unauthorized application, Customers shall indemnify and hold Diodes Incorporated and its representatives harmless against all claims, damages, expenses, and attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized application.

Products described herein may be covered by one or more United States, international or foreign patents pending. Product names and markings noted herein may also be covered by one or more United States, international or foreign trademarks.

LIFE SUPPORT

Diodes Incorporated products are specifically not authorized for use as critical components in life support devices or systems without the express written approval of the Chief Executive Officer of Diodes Incorporated. As used herein:

A. Life support devices or systems are devices or systems which:

1. are intended to implant into the body, or

2. support or sustain life and whose failure to perform when properly used in accordance with instructions for use provided in the labeling can be reasonably expected to result in significant injury to the user.

B. A critical component is any component in a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or to affect its safety or effectiveness.

Customers represent that they have all necessary expertise in the safety and regulatory ramifications of their life support devices or systems, and acknowledge and agree that they are solely responsible for all legal, regulatory and safety-related requirements concerning their products and any use of Diodes Incorporated products in such safety-critical, life support devices or systems, notwithstanding any devices- or systems-related information or support that may be provided by Diodes Incorporated. Further, Customers must fully indemnify Diodes Incorporated and its representatives against any damages arising out of the use of Diodes Incorporated products in such safety-critical, life support devices or systems.
