Product Highlights

Easy-on connectors provide a zero insertion force (ZIF) connector for use with flat flexible cable (FFC) and flexible printed circuitry (FPC). These miniature surface mount connectors have flip-type actuators that secure the connection between the FFC-FPC and the connector terminals. The compact size allows them to be used in any device where space is an issue.

Features and Benefits

- Compact depth, height and length features for space savings for mobile devices
- Robust terminal and actuator designs for higher contact and cable retention
- ZIF allows for repeat cycling with low wear
- Robust solder tabs for secure PCB retention

Applications

- Notebook PC
- PDA
- Digital Cameras
- Cellular phones
- Digital audio player
- GPS
