Description

Tripp Lite's CCC4 under-monitor console surge suppressor offers convenient AC protection, individually controllable outlets and two power switches for remote control of connected equipment. Built-in surge suppression offers 900 joules of protection against damage and performance problems caused by transient surges and line noise. CCC4 offers 4 outlets controlled by two switches for power control of computers with peripherals. Diagnostic LEDs confirm power availability and protection status, plus indication of line or suppressor fault conditions. Includes 8 foot AC line cord. Space-saving under-monitor design offers convenient protection and power control of computers and all system peripherals. Lifetime warranty with $5,000 Ultimate Lifetime connected equipment insurance (USA & Canada Only).
