

FEATURES

- 200W compact high density
- Active load current share
- Universal AC input with Power Factor Correction
- Ruggedized U-channel construction
- RoHS compliant
- Includes ORing diode for N+1 parallel operation
- International regulatory approvals

DESCRIPTION

The CF200-A12C switching power supply utilizes advanced component and circuit technologies to deliver one of the industry's smallest 200 Watt switchers. Built to meet 1U height considerations, the U-Frame package measures only $3.30\ x$ $5.00\ x$ 1.50". The CF200-A12C offers universal AC input (85-265VAC) with active power factor correction (PFC) and compliance to worldwide safety and EMC standards.

| Weight | 510g | | | | |

| PROTECTION CHARACTERISTICS | | | | | |
|----------------------------|---|------|------|------|-------|
| Parameter | Conditions | Min. | Тур. | Max. | Units |
| Over Temperature | Internal thermostat protects the power supply against excessive temperature. Automatic recovery. | | | | |
| Over Voltage | Outputs shut down at 125% of nominal; AC input must be recycled to restore operation. | | | | |
| Over Current | 12V output: 110 to 130% of Imax, hiccup mode current limit; automatic recovery. Long-term fail condition shall not cause damage to PSU. | | | | |

| ISOLATION CHARACTERISTICS | | | | | |

| Isolation | Output to Chassis | 100 | | | Vdc |
| Material Flammability | UL 94V-0 | | | | |
| Grounding | Output RTN's not connected to chassis gnd. 12V RTN and 5V RTN shorted. | | | | |

| CONTROL SIGNALS | |
|----------------------------|--|
| Status | Description |
| Power Good (PG) indication | This signal is used to detect the presence of output voltage. This signal goes high when input power is applied and output voltage is more than 85% of nominal 12.0 VDC output. Signal type: TTL-compatible, with 2.43K pull-up resistor to +5V. |
| Enable | Active low input to enable +12VDC output of power supply. For normal operation, short to - Sense. |
| +Sense | Positive side of Remote Sense input. |
| -Sense | Negative side of Remote Sense input. |
| 5V AUX | +5V standby. |
| Current Share | Single-wire current-share connection. |
| LED Drive | 10mA min. When PG is high, Pin 1 of J2 shall go high to illuminate external GREEN LED. When PG is low, Pin 3 of J2 shall go high to illuminate external YELLOW LED. |
