# USB MASS STORAGE DEVICE REFERENCE DESIGN QUICK-START GUIDE

1   **Insert Reference Design Kit CD in CD-ROM Drive.**
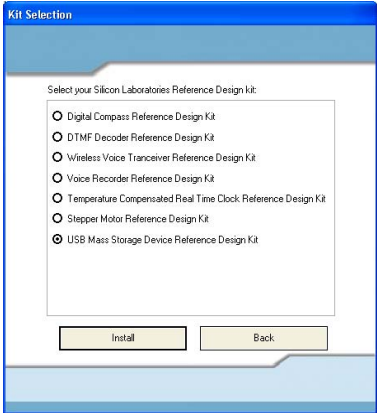

Note: If autorun does not launch the introduction window, run *autorun.exe* directly from the CD.
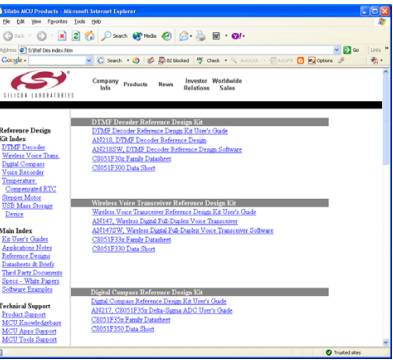

2   **Click the *Install Reference Design Kit Tools* button.**
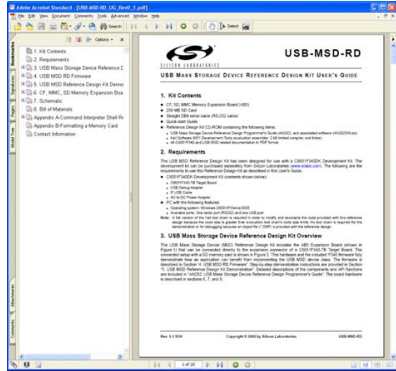

3   **Select the *USB Mass Storage Device Reference Design Kit* option and click the *Install* button.**

4   **After the installation is complete, click the *Browse Documentation* button. Choose the *USB Mass Storage Device* link on the left pane. Then choose the *USB Mass Storage Device Reference Design Kit User's Guide*.**

5   **Follow the instructions in the User's Guide to complete the USB MSD demonstration.**

If you are having trouble installing and/or using the reference design kit, please use the following support resources:

1. USB Mass Storage Device Reference Design Kit User's Guide (included in the reference design kit CD)
2. AN282: USB Mass Storage Device Reference Design Programmer's Guide (included in the reference design kit CD)
3. MCU Knowledgebase
(available at www.silabs.com → SUPPORT)
4. Contact an Applications Engineer using the online information request form
(available at www.silabs.com → SUPPORT).
