

Description

HBS dc-dc converters provide up to 50 watts of output power in an industry-standard, half-brick footprint. The HBS units feature excellent efficiency, Class A conducted noise specs, and fixed switching frequency. The HBS, using open-frame packaging, along with planar magnetics provides maximum useable power with minimal thermal constraints. The HBS Series is especially suited to telecom, networking, and industrial applications.

Features

- RoHS lead solder exemption compliant
- Industry-standard half-brick
- Open-frame packaging
- 100 °C base plate operation
- Water washable
- "True-trim" option
- 1500 V isolation
- Positive or negative logic
