

UltraHEAT™ heat guns were designed to combine high performance with exceptional value. These general purpose heat guns feature a reinforced heating element tested at over twice the useful life of comparably priced tools and impact resistant housings to ensure durability.

Both models are lightweight and easy to use, offer quick heat-up and ultra quiet operation. A variety of accessories and kit presentations make UltraHEAT™ extremely versatile and a great value for most intermittent applications.

UltraHEAT™ TECHNOLOGY IS BUILT FOR...

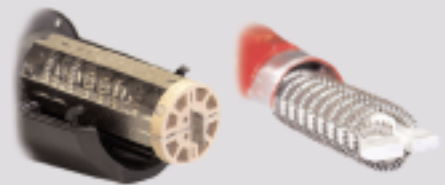

- Reliability
- Long Life
- Performance
- Versatility

UltraHEAT™ Performance is Guaranteed

UltraHEAT™ heat guns are guaranteed for a full year under normal operating conditions, even in the in the shop. This warranty covers all working parts including heating element and motor.

Reinforced vs. Traditional Elements

The UltraHEAT™ reinforced heating element features lateral supports to extend coil life and a ceramic disk at the output tip to increase stability and even heat. It outperforms and outlasts traditional mica elements.

Connector Block Circuitry vs. Traditional Wiring

UltraHEAT™ Modular Interconnect Block Circuitry increases reliability. Plastic is injection molded around the "wiring" to form a solid block, which will not break or disconnect like traditional wiring. A fully enclosed slide switch and firmly secured power cord add to UltraHEAT™'s durability and long life.

Traditional wiring can easily break or become disconnected.

UltraHEAT™

SV 800 DUAL TEMPERATURE HEAT GUN

This model features a dual temperature switch and is designed for general intermittent use.

Dual Temperature: Low: 600°F High: 950°F

Cool Air Stage: Enables rapid cool down

Power Cord: Double insulated for safe operation

Output: 1300 watts

Voltage: 120 VAC / 60 Hz

Certifications: UL / C-UL

Warranty: Full One Year

UltraHEAT™ II

SV 803 VARIABLE TEMPERATURE HEAT GUN

Ultra Heat II is a variable temperature heat gun featuring 2 airflow settings with heat and a selectable cool air stage for maximum user control. This model also has a soft grip handle for comfortable operation.

Variable Temperature: Up to 1050°F

3 Stage Airflow: Cool air, 140°F

Low Speed

High Speed

Power Cord: Double insulated for safe operation

Output: 1400 watts

Voltage: 120 VAC / 60 Hz

Certifications: UL / C-UL

Warranty: Full One Year

UltraHEAT™ KIT

SV 803 K VARIABLE TEMPERATURE HEAT GUN KIT

Kit Includes:

- SV 803 Heat Gun
- Heavy Duty Carrying Case
- 75mm Spreader Nozzle
- 39mm Reflector Nozzle

NOZZLE ASSORTMENT

Heavy gauge nickel plated steel nozzles for a wide range of applications.

75mm Spreader Nozzle

39mm Reflector Nozzle

Scraper Nozzle
