Master Appliance Corp., Designers and Manufacturers of Heat Tools for Industry

Located near the western shores of Lake Michigan in Racine, Wisconsin, Master Appliance invented and introduced the first industrial quality heat gun to the worldwide marketplace in 1958. In 1985, we introduced North America's first butane-powered, cordless soldering iron, torch and flameless heat tool, ideal for field use. These professional quality heat tools, and others developed since, have enjoyed worldwide market success. Today our products are used in thousands of facilities, workshops and in the field for drying, welding, shrinking, soldering, desoldering, gluing and for many other common and unique applications, where heat is the need.

Master is continually developing new heat tool products, with enhanced capabilities, making it easier to work with new materials and processes used throughout industry. With over 50 years of experience, the Master name stands for extraordinary expertise in heat technology, quality products and unsurpassed service. Whether you are considering a new application, material or process or simply looking to replace an old, tired heat tool, call us for fast professional service.

Local Availability, Sales, Parts & Service

Master heat tools are sold worldwide through a network of Authorized Stocking Distributors. Trained Sales and Customer Service Representatives, located at our headquarters and throughout the world, insure fast personal service. Contact us for your nearest stocking distributor or sales representative. **Visit our website for up-todate information on products, accessories, parts, warranty and repair service.**

Engineering, Design, Research and Development

Master's goal is to provide the most advanced and rugged heat tools in the market, and the best product for your specific application. Our Heat Technology Specialists, using state-of-the art systems, tools and test & measurement equipment, are constantly striving for better heat tool designs that are ergonomic, compact and lightweight or feature heavy-duty, stable bases for mounting or bench-top use.

Manufacturing

Master Heat[™] Tool products are made with superior, quality materials and the finest craftsmanship. Great designs and expert assembly, in a lean, efficient manufacturing setting, assure our customers maximum product quality, performance and value.

Master Varitemp[®] VTS Heat Gun

Deluxe Varitemp Heat Gun with versatile pivoting stand

- Stable, deluxe heavy-duty, pivoting metal stand with non-slip rubber feet
- Unique, adjustable spring loaded slide handle with ergonomic grip
- Easy selection of multiple pivoting angles for hands-free or hands-on use, to provide the best balance and aim
- High temperature and power ratings: Ambient up to 1000°F/540°C at 1740 watts
- Variable temperature control provides easy dial-in temperatures
- Powerful high speed universal motor
- High airflow rating: 23 CFM at 3000 FPM gets the job done fast
- Sturdy die cast aluminum housing
- Double protected heating element housing
- Easily replaceable, reinforced, mica-insulated ceramic heating element
- Externally accessible carbon brush holders for quick replacement
- Three position "OFF-COLD-HOT" rocker switch
- 6 foot, 3-wire grounded cordset made with flexible, oil and sunlight resistant rubber jacket
- UL Listed. Made in USA
- Use to shrink tubing and packaging, bend plastics, cure adhesives, dry and heat parts, strip paint, defrost frozen pipes, heat sensitive materials, solder/desolder and more

Master & Varitemp[®] Heat Guns

Professional, heavy-duty, industrial quality, multiple use heat guns

- High temperature and power ratings: up to 1000°F/540°C at 1740 watts
- Varitemp model features variable temperature control which allows user to dial-in a any temperature from ambient to 1000°F/540°C
- High air flow rating: 23 CFM at 3000 FPM gets the job done fast
- Powerful high speed universal motor
- Sturdy die cast aluminum housing
- Double protected heating element housing
- Easily replaceable, reinforced, mica-insulated ceramic heating element
- Externally accessible carbon brush holders for quick replacement
- Three position "OFF-COLD-HOT" rocker switch
- Contoured, well balanced handle
- Non-slip rubber-backed base with 90° rotation
- 6 foot, 3-wire grounded cordset made with flexible, oil and sunlight resistant rubber jacket
- Optional Momentary Contact Switch
- UL Listed or CSA Certified. Made in USA
- Use to shrink tubing and packaging, bend plastics, cure adhesives, dry and heat parts, strip paint, defrost frozen pipes, heat sensitive materials, solder/desolder and more

Momentary Contact Safety Switch: if not held, will shut the unit off

An option for Master Heat Gun[®] models. To order add "MC" suffix to model number. Example: HG-501A-MC.

Also, many international voltages/cordsets available upon request.

Contact our Sales Department for appropriate model numbers.

See our website for other parts and repair service information

Proheat[®] LCD Programmable Heat Gun & Kit

Rugged variable air flow, variable temperature heat gun with digital display

- Compact, light weight, easy-to-use
- Six preset & customizable program settings with digital display of temperature and air flow settings
- Programmable heat and air flow removes the guess work
- Adjustable temperature in 10° increments from 130°F to 1000°F (50°C to 540°C) in your choice of degrees Fahrenheit or Celsius
- Adjustable air flow from 4 to 16 CFM (113 453 l/min.)
- Electronic closed loop temperature control system maintains constant temperature when varying air flow or using specialty attachments
- Base functions as built-in stand for hands-free use
- Ergonomic handle provides balanced grip
- Temperature & Air Flow Lock-In feature provides added management control. Perfect for production applications requiring consistent application of heat.
- Power-interrupt Reset for added safety, prevents heat gun from causing damage if left in "Hot" position during power failure, when power returns
- Made in the USA. 12 month warranty
- UL Listed or CE Certified
- Use to heat or dry temperature sensitive materials, shrink tubing, shrink packaging and specialty connectors, solder and desolder, bend plastics, activate adhesives, remove decals, defrost frozen pipes and more
- Multiple electrical plugs, attachments & bench stand available - see page 12

Economical, lightweight, multi-use heat gun

AGMT

Kit includes storage case and four specialized nozzle attachments shown left to right: 7/8" reducer, shrink tubing reflector, 1-5/16" spreader and 3-1/8" spreader

Two heat settings: 500°F or 1000°F (260°C or 540°C)

- Two fan speeds Low or High (7 or 9 CFM)
- Resettable thermostat Automatically protects element against overheating
- Lightweight 1 lb. Easy to hold at any angle for long periods of time, eliminates operator fatigue
- Built-in hand guard Protects hand and fingers. Recessed switch guards against knocks and bumps
- 3-wire grounded cordset Positive grounding system for user safety
- Thermoplastic housing For high impact durability
- Built-in stand Very stable, allows user to set heat gun down in an upright position for hands-free use
- Use to bend and form plastics, dry body fillers, remove decals, spot dry paint, shrink tubing, packaging and more

MODEL NO.	DESCRIPTION
EC-100	500°F or 1000°F 260°C or 540°C 7 or 9 CFM 120V 50/60 Hz 10A 1200W 側 🕷
EC-100K	500°F or 1000°F 260°C or 540°C 7 or 9 CFM 120V 50/60 Hz 10A 1200W (). Kit includes EC-100 Heat Gun, 7/8" reducer attachment, 1-1/4" shrink tubing reflector, 1-15/16" and 3-1/8" spreader attachments packed in a durable storage/carrying case
35225	Attachment kit contains 7/8" reducer attachment, 1-1/4" shrink tubing reflector, 1-15/16" and 3-1/8" spreader attachments
35215	Durable storage/carrying case

Specifications

Air Volume: 7 or 9 CFM ■ Air Velocity: 720 or 1100 FPM ■ Motor: Permanent Magnet ■ Nozzle Opening: 1.2" I.D., 1.35" O.D. ■ Cordset: 6 ft., 3-wire grounded ■ Dimensions: 8.5" L x 3.2" W x 7.7" H ■ Tool Net Weight: 2 lbs. ■ Shipping Weight Tool: 3 lbs. ■ Shipping Weight Kit: 5 lbs.

NOTE: Users should independently evaluate the suitability of the product for their application.

Masterflow[®] Heat Blower

Heavy-duty, industrial quality, continuous-duty heat blower

Heating Element * NEMA 5-20P Plug

Specifications Air Volume: 47 CFM Air Velocity: 2200 FPM Motor: Induction Nozzle Opening: 1.85" I.D., 2.25" O.D. Dimensions: 12" L x 6" W x 9" H, (AH-301 & AH-302, 9" L x 6" W x 9" H) Base Size: 6" x 6" Cordset: 6 ft., 3-wire grounded Net Weight: 6 lbs. Shipping Weight: 8 lbs.

- 3 models produce 300°F, 500°F or 750°F. High temperaturesaccommodate many heating, drying & shrinking applications
- High air flow: 47 CFM at 2200 FPM gets job done fast
- Brushless induction type motor for quiet, continuous-duty operation
- Easily replaceable, reinforced, mica-insulated heating element
- Rubber-backed stand permits 90° non-slip adjustability
- Use in any position or mount on equipment
- Ergonomic handle for carrying or portable use
- Mount over conveyor line or on machinery
- Use to heat or dry materials, bend plastics, shrink wrap and more

Master-Mite[®] Heat Gun

Continuous-duty bench-top heating system

- Complete system comes standard with 650°F/343°C heating element, adjustable stand and heat shrink attachment
- Ideal heat & air flow (3.8 CFM), performs benchtop heating jobs without blowing components around the work station
- Quiet-running shaded pole motor, eliminates noisy production areas 3 optional easy-to-change plug-in heating elements available:
- 500°, 650° & 800°F Use to activate adhesive, cure epoxies, dry components, melt
- solder preforms, remove decals, shrink tubing and more

Master-Mite[®] ESD Heat Gun

Continuous-duty ESD bench-top heating system

- Complete system comes standard with black 800°F/427°C heating element, shrink attachment and adjustable stand
- Totally grounded system with housing surface conductivity 500 ohms square. Conductive housing will not build up or hold a static charge
- Housing helps to shield against EMI & RFI (electromagnetic & radio frequency interference)
- A long-life, quiet-running, maintenance free shaded pole motor
- Low velocity air flow will not blow components around the workstation
- 3 optional interchangeable plug-in heating elements available
- Complete line of attachments available
- Use to activate adhesive, cure epoxies, dry components, melt solder preforms, remove decals, shrink tubing and more

Econolron[®] El-20

Economical, butane-powered soldering iron, flameless heat tool & torch

High Performance Ultratip[®] Technology

Longer tip life, superior thermal conductivity

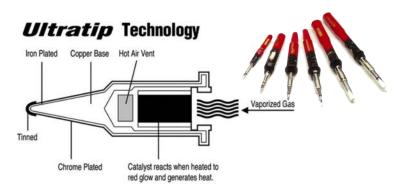

Master Appliance Ultratorch[®] heat tools feature Ultratip[®] soldering tips. Ultratip is the long lasting, oxygen-free, copper based, iron and chrome plated soldering tip with a built-in catalyst, tinned with lead-free solder.

Ultratorch heat tools, with Ultratip Technology, are perfect for use with today's lead-free solders. In fact, Ultratip soldering tips have more than double the iron and chrome plating thickness of our competitors' brass based tips, providing higher thermal conductivity and much longer tip life.

Tips for Lead-Free Hand Soldering

Because hand soldering tends to be done at the end of the line, where the value of a board is at its highest, switching to lead-free solder may have a significant effect on your manufacturing yields, costs and productivity. Simply increasing tip temperature is not the answer because it can cause flux to evaporate before it's had time to activate.

The keys to success here are tip material, tip shape, tip condition, the soldering iron's power output and it's time on the joint.

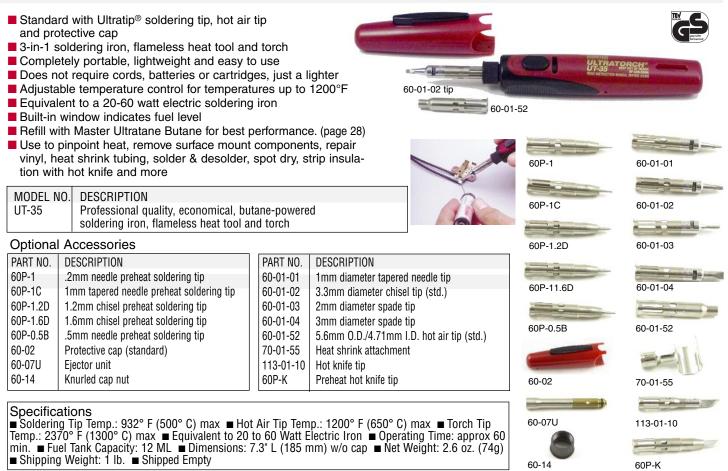

By choosing the tip shape closest to the component you're soldering, and always selecting the largest tip, you'll transfer heat more efficiently at lower settings. We offer a wide selection of tips for your applications.

Since lead-free solder's higher tin content erodes the tip's iron plating faster, Ultratip's thicker iron and chrome plating will significantly extend the tip life. Cleaning your tips often and immediately re-tinning them will also keep them in top condition longer.

Ultratorch[®] UT-35

Economical, butane-powered, 3-in-1 soldering iron, flameless heat tool & torch

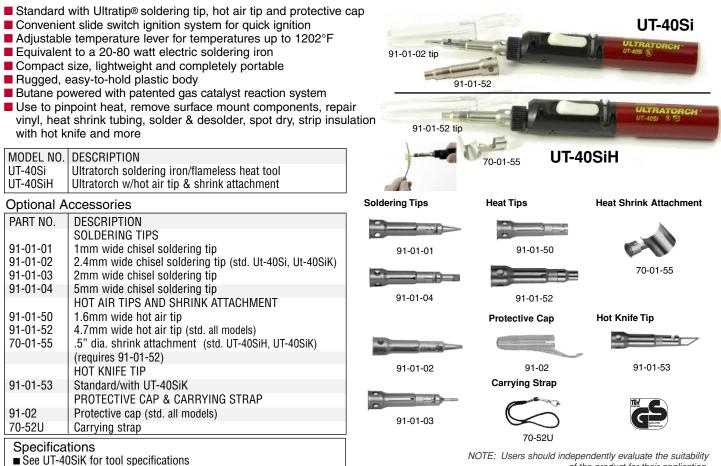

Refill with Master Ultratane Butane for best performance. (page 28)

NOTE: Users should independently evaluate the suitability of the product for their application.

Ultratorch[®] UT-40Si & UT-40SiH

Professional quality, economical, self-igniting soldering iron & flameless heat tool

of the product for their application.

Ultratorch[®] UT-40SiK

Professional quality, economical, self-igniting soldering iron & flameless heat tool kit

- Kit contains Ultratorch, Ultratip® soldering tip, hot air tip, hot knife tip, shrink attachment, cap, sponge and stand, packed in a rugged plastic storage/carrying case
- Convenient slide switch ignition system for quick ignition
- Adjustable temperature lever for temperatures up to 1202°F,
- Equivalent to a 20-80 watt electric soldering iron
- Compact size, lightweight and completely portable, features a rugged, easy-to-hold plastic body
- Patented gas catalyst reaction system
- Use to pinpoint heat, remove surface mount components, repair vinyl, heat shrink tubing, solder & desolder, spot dry, strip insulation with hot knife and more

Ultratorch[®] UT-50

Professional quality, pen-sized butane-powered soldering iron, flameless heat tool and torch

NOTE: Users should independently evaluate the suitability of the product for their application.

Ultratorch[®] UT-100SiEA

Self-igniting butane-powered flameless heat tool with fan assisted airflow

- Eliminates scorching and burning damage to shrink tubing during installation
- Variable temperature 302°F to 572°F (150°C to 300°C) with fan
- Enhanced Air Flow volume is 4 times greater with fan
- Variable temperature 482°F to 932°F (250°C to 500°C) without fan Butane-powered and completely portable/cordless, for use where
- no electrical outlets are available
- Built-in battery-powered motor uses 4 standard AA batteries
- Built-in LED light provides lighting in dark locations
- Built-in stand is convenient for safety and hands-free use
- Ideal for terminating shrink tubing and specialty connectors 10mm I.D. or less
- Use with or without enhanced air flow and with or without shrink attachment
- Ergonomic handle makes tool easy to use over an extended period of time
- UL & TUV Listed

Ultratorch[®] UT-100 & UT-100-TC

Butane-powered soldering iron, flameless heat tool and torch

- Triple function soldering iron, flameless heat tool and brazing torch
- Features oxygen-free, copper based Ultratip® soldering tips, with thick iron and chrome plating for long life and high thermal conductivity
- Cordless and completely portable, ready-to-use in 30 seconds
- Adjustable temperature control
- Soldering temperature up to 932°F, ideal for use with today's lead-free solder
- Hot air temperature up to 1202°F, perfect for Solderseal™ environmental "heat and seal" connectors
- Torch temperatures up to 2372°F/1260°C
- Sturdy metal tank with fuel viewing window holds enough fuel for 2 hours of operation
- Refill with Master Ultratane Butane for best performance. (page 28)
- Use to pinpoint heat, remove surface mount components, repair vinyl, heat shrink tubing, solder and desolder, spot dry, torch materials and more
- Optional accessories available and interchangeable between UT-100 & UT100Si. (See page 20)

Torch

Ultratorch[®] UT-100 & UT-100Si Tips and Accessories

For use with UT-100 & UT-100Si Ultratorches

- Oxygen-free, copper based Ultratip® soldering tips have thick iron and chrome plating for long life and high thermal conductivity
- Ultratips are manufactured using a patented process which produces uniform iron and chrome plating thickness
- Ultratip[®] soldering tips feature leading-edge combustion chamber/exhaust port design
- All tips pre-tinned with lead-free solder
- Optional accessories interchangeable between all UT-100 & UT-100Si models

PART NO.	DESCRIPTION

Ultratorch® UT-200, & UT-200Si

Butane-powered soldering iron/heat tools

UT-200

- Operates as a soldering iron, flameless heat tool and butane torch
- Standard with Utratip® soldering tip, hot air tip, shrink attachment and protective cap
- Equivalent to 200 watt max. electric soldering iron
- Adjustable temperatures up to 2372°F/1260°C
- High power (BTU's) makes it perfect for heavy-duty service and maintenance
- Sturdy metal tank holds enough fuel for 2.6 hours of operation at middle temperature setting
- Refill with Master Ultratane Butane for best performance. (page 28)
- Use to pinpoint heat, heat shrink tubing, solder and desolder, strip insulation, terminate specialty connectors, torch materials and more
- Optional accessories interchangeable between UT-200, UT-200Si and UT-300Si models

UT-200SI

- Operates as a soldering iron and flameless heat tool
- Self-ignition with push button for fast, easy starting
- Standard with Utratip® soldering tip, hot air tip, shrink attachment, spanner wrenches and protective cap
- Equivalent to 200 watt max. electric soldering iron
- Adjustable temperatures up to 1004°F/540°C
- High power (BTU's) makes it perfect for heavy-duty service and maintenance
- Sturdy metal tank holds enough fuel for 2.6 hours of operation at middle temperature setting
- Refill with Master Ultratane Butane for best performance. (page 28)
- Use to pinpoint heat, heat shrink tubing, solder and desolder, strip insulation, terminate specialty connectors, torch materials and more

Ultratorch[®] UT-200, UT-200Si & UT-300Si Tips and Accessories

For use with UT-200, UT-200Si & UT-300Si Ultratorches

- Oxygen-free, copper based Ultratip® soldering tips have thick iron and chrome plating for long life and high thermal conductivity
- Ultratips are manufactured using a patented process which produces a uniform iron and chrome plating thickness
- Ultratip® soldering tips feature leading-edge combustion chamber/exhaust port design
- All tips are pre-tinned with lead-free solder
- Optional accessories interchangeable between UT-200, UT-200Si and UT-300Si models

Microtorch Model MT-5

Pocket-sized, self-igniting butane-powered microtorch

- Compact pocket size that fits easily into pocket or tool kit
- Quick starting self-igniting piezo electric ignition eliminates the need for lighters or matches
- Flame resists wind and moisture and is perfect for outdoor use
- Adjustable flame height for low and high temperatures up to 2500°F/1300°C blue flame
- Safety lock and attached safety cap prevent unintentional ignition
- Hands-free mode
- Refill with Master Ultratane Butane for best performance. (page 28)
- Meets Consumer Products Safety Commission (CPSC) Child Safety Requirements
- Use to heat and ignite materials, repair glass, shrink tubing, solder and desolder, terminate specialty connectors and more

MODEL NO. DESCRIPTION MT-5 Pocket-sized Microtorch

Specifications

Åpprox. Flame Temp. 2500° F ■ Fuel Tank: Plastic, Built-in, Refillable
 Approx. Run Time: 20 min. @ max. setting ■ Dimensions: 2.9" H x 1.3"
 W x .9" D ■ Net Weight: 1.7 oz. ■ Shipping Weight: 1 lb. ■ Shipped Empty

NOTE: Users should independently evaluate the suitability of the product for their application.

Microtorch Models MT-11 & MT-11K

Compact palm-sized, self-igniting, butane-powered microtorch & kit

- Built-in self-igniting system with safety lock
- Temperatures up to 2500°F/1300°C
- Compact palm-sized, perfect for tool kits and field service kits
- Adjustable wind-resistant flame
- Replaceable, refillable "fuel cell" (included)
- Meets Consumer Products Safety Commission (CPSC) Child Safety Requirements
- Kit includes microtorch with empty fuel cell and 15/16 oz. can of butane packed in single shipper carton with proper D.O.T. markings
- Ships via ground transportation without hazmat charges
- Use to heat materials, ignite materials, pinpoint torch, shrink tubing, solder and desolder, terminate specialty connectors and more

8

Specifications

■ Approx. Flame Temp.: 2500° F ■ Approx. Run Time: 20 min. @ max. setting ■ Fuel Tank: Refillable Fuel Cell ■ Dimensions: 4.3" H x 2.5" W x 1" D ■ Net Weight: 2.1 oz. ■ Shipping Weight: 1 lb. ■ Shipping Weight Kit: 2 lbs.

Microtorch Model MT-30

Low profile, table-top Microtorch with stable base

- Built-in self-igniting system with safety lock that ensures the switch is not turned on when not in use
- Wide, heavy, stable base is perfect for bench-top use
- Durable self-contained, refillable metal fuel tank
- 60 minute continuous run time with a full charge
- Adjustable broad or pinpoint flame
- Safety lock prevents unintentional ignition, locks for storage
- Refill with Master Ultratane Butane for best performance. (page 28)
- Use to heat materials, ignite materials, pinpoint torch, shrink tubing, solder and desolder, terminate specialty connectors and more

MODEL NO.	DESCRIPTION
	Low profile table-top Microtorch

Specifications

• Approx. Flame Temp.: 2500° F • Approx. Run Time: 60 min. @ max. setting • Fuel Tank: Metal, Built-in, Refillable • Dimensions: 5.1" L x 3" W x 3.5" D • Net Weight: 12 oz. • Shipping Weight: 1 lb. ■ Shipped Empty

NOTE: Users should independently evaluate the suitability of the product for their application.

Mini-Triggertorch Model MT-70 & MT-70P

Self-igniting butane-powered heat tool

 (ϵ)

- Gas adjustment wheel provides adjustable, long blue torch flame with temperatures up to 2,500°F/1300°C
- Self-igniting piezo electric ignition is easy to start and eliminates the need for lighter or matches
- Incorporates "trigger" switch with "pulldown" lock to meet Consumer Products Safety Commission (CPSC) Child Safety Requirements
- "Hands-free" slide lock for continuous use and instant off operation
- Ergonomic handle design ensures a non-slip grip
- Removable base for table-top or hand-held use
- 60 minute continuous run time with a full charge
- Durable self-contained, refillable plastic fuel tank
- Refill with Master Ultratane Butane for best performance (page 28)
- Unique shutter lever to easily extinguish ignition flame if using optional soldering or hot air tip attachments
- Use to heat parts, ignite materials, melt plastic, shrink tubing, solder & desolder, terminate specialty connectors and more

MODEL NO.	DESCRIPTION
MT-70	Table-Top Mini-Triggertorch
MT-70P	MT-70 Mini-Triggertorch & MT-11 Palm-sized Microtorch

Specifications

Approx. Flame Temp.: 2500° F · Approx. Run Time: 60 min. @ max. setting · Fuel Tank: Plastic, Built-in, Refillable · MT-70 dimensions: 5.5" L x 3.8" H x 1.3" W · Net Weight: 6.4 oz. • Shipping Weight: 1 lb. ■ Shipped Empty • ■ MT-70P shipping weight 2 lbs.

Microtorch Models MT-51, MT-51B & MT-51H

Hand-held or table-top butane-powered microtorch

- Built-in self-igniting system with gas shut-off safety lock
- Durable self-contained, refillable plastic fuel tank
- Wide, stable base is perfect for hands-free use
- Temperature up to 2500°F/1300°C
- 2 hour continuous burn time, perfect for continuous heat applications
- Adjustable broad or pinpoint flame
- Refill with Master Ultratane Butane for best performance. (page 28)
- Meets Consumer Products Safety Commission (CPSC) **Child Safety Requirements**
- Use to heat materials, ignite materials, pinpoint torch, shrink tubing, solder and desolder, terminate specialty connectors and more

MT-51B ships via ground transportation with no Hazmat charges

MODEL NO.	DESCRIPTION
MT-51	Microtorch, table-top
MT-51B	Microtorch, table-top with ¹⁵ /16 oz. butane (10448)
MT-51H	Microtorch, table-top includes hot air tip (35387) and
	1" diameter heat shrink attachment (35394)

Specifications

• Approx. Flame Temp.: 2500° F • Approx. Run Time: Two Hours • Fuel Tank: Plastic, Built-in, Refillable • Dimensions: 6.1" H x 3" W x 1.3" D Net Weight: 5 oz. • Shipping Weight: 1 lb. • Shipped Empty

Triggertorch[™] Models MT-76 & MT-76K

Professional quality, hand-held or table-top, butane-powered, self-igniting triggertorch, soldering iron and flameless heat tool

- Gas adjustment wheel provides adjustable, long blue torch flame with temperatures up to 2,500°F/1300°C
- MT-76 includes soldering tip and hot air tip for soldering up to 752°F/400°C and heating up to 932°F/500°C
- Self-igniting piezo electric ignition is easy to start and eliminates the need for lighter or matches
- Kit includes triggertorch, removable stand, 5" wire cutter, 5" needle nose pliers, soldering tip, hot air tip, shrink attachment, polyfoam cutter, hot knife tip, roll 60/40 solder, and stand with sponge packed in a durable plastic storage/carrying case
- Incorporates "trigger" switch with "pulldown" lock to meet Consumer Products Safety Commission (CPSC) Child Safety Requirements
- "Hands-free" slide lock for continuous use and instant off operation
- Unique shutter lever to easily extinguish ignition flame when using soldering or hot air tip attachments
- Ergonomic handle design ensures a non-slip grip
- Removable base for table-top or hand-held use
- 2 hour continuous run time with a full charge
- Durable self-contained, refillable plastic fuel tank
- Refill with Master Ultratane Butane for best performance (page 28)
- Use to heat parts, ignite materials, melt plastic, shrink tubing, solder & desolder, terminate specialty connectors and more

MT-76K, 4 tools in 1 Open Flame Torch, Soldering Iron, Flameless Hot Air and Hot Knife

Solder

Flameless Hot Air

2 Hour Run Time

MODEL NO.	DESCRIPTION
MT-76	Triggertorch with table-top stand, soldering tip (35386)
	& hot air tip (35387)
	Triggertorch with table-top stand, soldering tip (35386),
	hot air tip (35387), hot knife tip (35400), shrink attachment
	(35394), polyfoam cutter (35396), 5" wire cutter, 5" needle nose
	pliers, 60/40 solder and sponge packed in a durable plastic case

Specifications

• Approx. Flame Temp.: 2500° F • Approx. Run Time: Two Hours • Fuel Tank: Plastic, Built-in, Refillable • Dimensions: 6.5"H x 3.8"W x 1.3"D • MT-76 Weight: 7.6 oz. • Shipping Weight: 1 lb. • Shipping Weight Kit: 3 lbs. • Shipped Empty

NOTE: Users should independently evaluate the suitability of the product for their application.

MT-76, 3 tools in 1 Open Flame Torch,Soldering Iron and Flameless Hot Air

General Industrial Torch Model GT-70

Hand-held or table-top, butane powered, heavy-duty, general industrial torch

- Self-igniting piezo electric ignition is easy to start and eliminates need for lighter
- Durable self-contained, refillable metal fuel tank
- 30 minute continuous run time with a full charge
- Large sized adjustable blue flame accommodates heavy-duty industrial applications with temperatures up to 2500°F/1300°C
- Safety lock prevents unintentional ignition, locks for storage
- Refill with Master Ultratane Butane for best performance
- Meets Consumer Products Safety Commission (CPSC) Child Safety Requirements
- Use to braze with special alloy welding rods, heat and bend thin metals, loosen rusted bolts, pop dents out of metal, shrink and terminate heavy wall adhesive-lined tubing, solder and desolder and more

MODEL NO.	DESCRIPTION
GT-70	General Industrial Torch
Specifications ■ Approx. Flame Temp.: 2500° F ■ Approx. Run Time: 30 Min. ■ Fuel	

Tank: Metal, Built-in, Refillable ■ Dimensions: 6.5" H x 5" W x 1.8" D ■ Net Weight: 10.6 oz. ■ Shipping Weight: 1 lb. ■ Shipped Empty

NOTE: Users should independently evaluate the suitability of the product for their application.

Ultratane[®] Butane

For use with all Master butane-powered products

Recommended fuel for all Master butane-powered products

- Triple-refined formula reduces clogging of filters
- Special vapor pressure promotes consistent ignition
- Contains no CFC's
- Available in two aerosol canister sizes: 5¹/₈ oz. (145 gm) and ¹⁵/₁₆ oz. (26.5 gm) and refillable RC-31 fuel cells
- Model 10448 has proper D.O.T. markings to ship via ground transportation without hazardous material charges
- Model 51773 ships via ground transportation with hazardous material charges

tip adapter
p adapter
d

- RC-31 Fuel Cell (for use with MT-11)
- RC-31 has proper D.O.T. markings to ship via ground transportation without hazardous material charges
- RC-31 is not considered a cigarette lighter
- RC-31 is a refillable fuel cell to replace pre-childproof lighters
- Refillable with Master Ultratane[®] Butane 51773 and 10448

NOTE: Users should independently evaluate the suitability of the product for their application.

28

PortaPro[®] Glue Gun

Cordless, butane-powered hotmelt glue gun

- Completely portable, lets you work almost anywhere
- Industrial power and durability
- One touch, fast piezo ignition
- Reaches operating temperature in less than 4 minutes
- 140 minutes continuous run time with a full charge
- Fuel view window indicates fuel level
- Refill with Master Ultratane Butane for best performance. (page 28)
- Built-in fold away stand
- Unlimited versatility
- Use to bond corrugated materials, chipboard and wood, fasten plastics, light metals, textiles, shock absorbent packaging, capacitors, resistors, soldered parts, electrical potting/staking parts on PC boards and jumper wires, reseal products during packaging, and glue down carpeting

MicroPro[®] AC MP-100 Standby Soldering Iron

Personal electric soldering iron

- Compact, lightweight, easy-to-use
- Fingertip grip, just two inches from target, is ideal for precise work
- Standby temperature mode reduces tip temperature during pauses between soldering jobs for faster warm-up to full solder temperatures
- Standby mode significantly extends tip life, (standby temp: 290°F/140°C, soldering temp: 1004°F (540°C)
- Heating element is located in the solder tip for outstanding heat transfer, heat up and recovery times - 14 watts maximum power
- Green/red LED indicators for standby and operating modes
- Perfect for use with today's lead-free solder
- Perfect personal soldering tool for R&D, electronic engineers and repair technicians

MicroPro[®] BT-30 Battery Powered Soldering Iron

Lightweight, compact, completely portable soldering iron

- Standard tool includes 2 Ultratip® soldering tips (1-.5mm conical tip and 1-1.5mm chisel tip), tip removal wrench, and 3 AA Alkaline batteries
- Lightweight and completely portable, equivalent to a 6W electric iron
- Solders approximately 60 minutes continuous duty
- Solders up to 160 joints intermittently with new batteries
- Fast start-up, reaches 361° F (183° C) in 10 seconds
- Total of 8 tips available (2 standard)
- Top quality, plug-in solder tips incorporate built-in heater (patent pending) Use to solder and desolder micro sized to small sized parts, perfect
- for field service and repair work

Sealed Electrical Systems

Environmentally sealed connections create permanent repairs

- Heavy Duty Trucking
- Marine & RV
- Plant Maintenance Departments
- OEM & Automotive Aftermarket
- Heavy Duty Equipment
- Oil Fields & Mining
- Municipalities & Military Bases

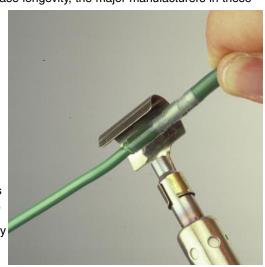

The past decade has seen the advent of sweeping technological advances in the automotive, fleet, and marine industries. Many of these advances involve improved electrical systems, controlled by miniature onboard computers. Consequently, small variations in voltage can significantly affect vehicle performance.

To combat these problems and increase longevity, the major manufacturers in these

industries are using completely sealed electrical systems. Unfortunately, the repair and maintenance industry is lagging behind. The integrity of sealed electrical harnesses is often breached when repairs are made with inferior, unsealed electrical connectors. Master Appliance has the solution.

The heat shrink connector is the innovative solution that allows the aftermarket to keep pace with changing technology. Each repair made with a heat shrink connector is individually protected from corrosion, contaminant's and current leakage. This ensures that the original integrity of the wiring harness is maintained.

Master Appliance high quality adhesive-lined Heat-Seal Electrical Connectors are available in three styles:

Multiseal™ Crimp, solder & heat-seal connectors

Solderseal™ Solder & heat-seal connectors

Proseal™ Crimp and heat-seal connectors

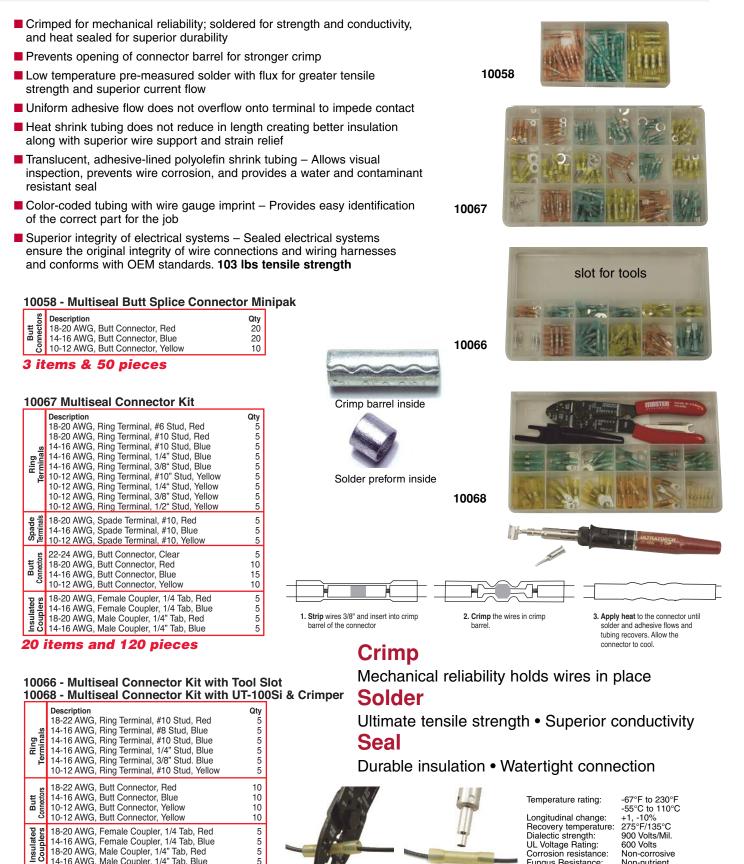

Sealed Electrical Systems

Seal Your Connectors! Make Permanent Repairs!

Resist water & condensation Resist salt & other contaminant's Resist wire pull out & current leakage

Proseal[™] Electrical Connector Kits

High quality crimp & heat-seal connectors

- The finest "Crimp & Heat-Seal" connector on the market today. Better wire contact - Less voltage drop - Better current flow
- Seamless butt connectors & brazed seam rings and spades Prevents opening of connector barrel for stronger crimp
- Uniform adhesive flow does not overflow onto terminal to impede contact
- Heat shrink tubing does not reduce in length, creating better insulation along with superior wire support and strain relief
- Translucent, adhesive-lined polyolefin shrink tubing Allows visual inspection, prevents wire corrosion and provides a water and contaminant resistant seal
- Color-coded tubing with wire gauge imprint Provides easy identification of the correct part for the job
- Superior integrity of electrical systems Sealed electrical systems ensure the original integrity of wire connections and wiring harnesses and conforms with OEM standards. 89 lbs tensile strength

Crimp

Crimp barrel inside

Mechanical reliability • Holds wires in place Seal

Durable insulation • Watertight connection

Temperature rating: ongitudinal change: Recovery temperature: Dialectic strength: UL Voltage Rating: Water absorption: Water absorption:

-67°F to 230°F -55°C to 110°C +1, -10% 275°F/135°C 900 Volts/Mil. 600 Volts <0.1% <0.1%

Heat-Shrink Tubing Kits

Dual wall flexible heat-shrink tubing with adhesive lining

- Polyolefin, 3 to 1 shrink ratio
- Highly flexible for conforming to irregular shapes
- Self-extinguishing UL224 (except clear)
- Internal layer of thermo-plastic adhesive provides a barrier against contaminant's

Heat-Shrink Tubing Kit Refills

Thin and dual wall heat-shrink tubing

Master Heat[®] Guns or Butane-powered portable heat tools, when used with these flexible polyolefin connectors and shrink tubing, create wireharness repairs that meet OEM Standards.

Crimping Tools

MRSTER

RACINE, WI. U.S.A P/N 35083

Hand tools for heat-seal electrical connectors

Cutter, Stripper, Crimper

- Two precision-ground wire cutters: up-front anvil-type and scissors-type located behind pivot point
- Cuts, strips and crimps stranded wire in 22 to 10 AWG sizes and solid wire in 18 to 8 AWG sizes
- Cuts 6-32, 8-32, 10-32, 10-24 and 4-40 bolts and screws
- Scissors action wire stripper is precision-ground for accuracy and clean, neat stripping.
- Cushioned handle for user comfort, made of heat-treated tool steel for long life, reliability and accuracy

MODEL NO.DESCRIPTION35083Cutter, Stripper, Crimper

IGN

Ratcheting Crimper

- Crimps 22-18, 16-14 and 12-10 AWG size connectors
- Rounded crimp die area for insulated terminals
- Industry standard color-coded crimp numbers for easy size identification
- Full-cycle ratcheting handle ensures a complete crimp
- Made from heat-treated steel for long life and reliability
- Cushioned handle for user comfort

Master Heat[™] Tools Factory Warranty

Every Master Heat Tool comes with a one year limited warranty

One Year Warranty

Master Heat Tools are carefully tested and inspected before being shipped from the factory. We warrant our products to be free from defects in materials and workmanship, under normal use and service, for one year from the date of purchase. In the event of a defect in materials or workmanship we will either repair or replace, at our option, without charge any part which in our judgement shows evidence of such defect.

Warranty does not apply to wearable items such as attachments, brushes, heating elements, solder tips, heat tips, burners or ejectors, which require periodic replacement, nor does it apply if the heat tool has been misused, abused, tampered with or altered.

At the end of the warranty period, Master Appliance shall be under no further obligation, expressed or implied. Master Appliance assumes no responsibility for, and this warranty shall not cover, any incidental or consequential damages from any defect in products or their use.

This warranty gives you specific rights. You may also have other rights which may vary from State to State. Warranty information is included within the Instruction Manual for each product or may be obtained by contacting Master's Customer Service Department at 800-558-9413, 262-633-7791 or www.masterappliance.com.

Master heat tools are sold worldwide through a network of Authorized Stocking Distributors. Trained Sales and Customer Service Representatives, located at our headquarters and throughout the world, insure fast personal service.

Contact us for your nearest stocking distributor or sales representative.

Visit our website for up-to-date information on products, accessories, parts, warranty and repair service.

Master Heat[™] Tool Applications

Professional quality heat tools for Industry

Master Heat[™] Tools

Heat has many industrial applications. The proper use of the right heat technology and the right product are necessary to achieve optimum results in each application.

Master is continually developing new products and techniques to meet the demands of new applications. Master heat guns are designed and constructed to provide our customers with dependable, cost-effective ways to apply heat properly for specific jobs.

With over fifty years of experience in the industry, the Master Appliance name assures its customers of an uncommon expertise in heat technology, quality products and unsurpassed service.

Our original heat gun met the heating needs of the maintenance, repair, operation and production applications of its time. Today's Master heat tools are designed with expanded capabilities which make it easy to work with the growing range of new materials and processes being developed by industry.

Master heat tools are used for drying, heating, welding, shrinking, soldering and de-soldering as well as a variety of other applications. Wherever heat is the need, Master has the answer.

Because each application is unique, the Master heat tool line offers options such as varying temperatures, air flow, a choice of nozzle configurations, attachments and voltage/plug combinations to meet your needs.

The introduction of new plastics, adhesives and other materials is a continuous process. The range of options and attachments offered by Master heat tools enables you to use the newest materials and techniques while relying on the traditional Master quality and durability.

Master is always here to help. When you're considering a new application, material or process, call Master Appliance for professional, efficient and courteous assistance.

Applications/Processes

Master heat tools are being used for hundreds of applications and processes throughout industry including:

- Activate adhesives and potting compounds
- Bend and form plastics and plastic laminates
- Cure and set adhesives
- Defrost freezers and frozen coils
- Dry body filler
- Dry conformal coatings on circuit boards
- Dry parts
- Expand metals
- General heating and drying applications
- Desolder backs of printed circuit boards to thru-hole components
- PVC bending
- Preheat flux
- Remove dents in fiberglass and other materials
- Remove pin striping
- Remove/install plastic autobody panels
- Remove windshield caulking
- Shrink and terminate environmental splices
- Shrink and terminate heat-shrinkable insulated solder preforms
- Shrink heat-shrinkable anti-static film
- Shrink heat-shrinkable molded parts
- Shrink heavy gauge shrink packaging
- Shrink heavy wall and adhesive-lined tubings
- Smooth vinyl tops
- Soldering and desoldering
- Spot dry paint
- Stretch vinyls
- Strip paint
- Vinyl repair

New applications and processes which require heat are discovered everyday. Users should independently evaluate the suitability of the product for their application.

As with all electrical and butane-powered tools, for your safety, read the instruction manual before using.

Product specifications are subject to change without notice.
