

Pulse transformers for THT mounting

Description

- High insulation rating (>3.2 kVAC) between the primary and the secondary windings
- High insulation rating up to 500V between the secondary windings
- Small coupling capacitances between primary and secondary windings limit transient feedback from the power supply side to the control electronics
- The defined partial discharge voltage guarantees an effectively unlimited serviceable life

Standards

- VDE 110b

Applications

- Galvanic separation of drive- and power-circuit
- Mainly used in ignition circuits with Thyristors, Triacs, power transistors and IGBT's
- DC/DC converters
- Line coupling transformers in high speed data transmission

Technical Data

Rated voltage	up to 600 VAC
Voltage Time Integral	150 - 400 Vμs
Pulse Rise Time	0.05 - 1.5 μs
Turns Ratio	1:1, 2:1, 1:1:1
Terminal technic	THT
Weight	6 - 11 g
Material: Housing	Plastics
Sealing Compound	UL 94V-0

Climatic Category	25/100/21 acc. to IEC 60068-1
Allowable Operation Temp.	-25 °C to 100 °C

Dimensions

Case 35-3

Case 35-4

1) Prim.

Case 39-3

Case 39-4

1) Prim.

Case 49-3

Case 49-4

1) Prim.

1) Prim.
