

PCN - 10 017

Issue Date: May 14 2010

Product Name:	Micro TCA Board to Board Connector		
	Micro TCA Board to Board Connector Press Fit Type		
Product Manager:	May Chen		
Subject:	Product Change Notification		
Distribution:	Global		
Type of Change:	Product Design Change		
Change Description:	<p>1.The new signal terminal design was changed to blanking type from original forming type to improve the mechanical and SI performance.2. Machennical performance improvement - mating cycles increase to 1200 (Plz refer to test report for the details). 3. There is no PCB layout and outside dimensions impact.</p>		
Reason for Change:	In order to have better mechanical performance and simplify the manufacturing process, FCI improve the current terminal design on Micro TCA Board to Board Press Fit connector.		
Affected Parts:	10058831-110,10058831-110LF,10058831-111,10058831-111LF		
Effective Date of Change:	May	17	2010
Last Time Buy Date:	Select	Sel	Select
Last Disty Return Date:	Select	Sel	Select
Datasheet Attached?	No		
Qual/Test Data Attached?	No		
Samples Availability Date:	February	10	2010
Available Alternatives?	No
