Double click on the Bluetooth icon in the system tray

On the Devices tab, click on the Add button

Power up the FireFly device.

Check the "My device is setup and ready to be found" option and click on the Next button

Select the FireFly device and click on the Next button

Add Bluetooth Device Wizard	
Do you need a passkey to add your device?	
To answer this question, refer to the "Bluetooth" section your device. If the documentation specifies a passkey,	n of the documentation that came with use that one.
© <u>C</u> hoose a passkey for me	
O Use the passkey found in the documentation:	1234
Let me choose my own passkey:	
Don't use a passkey	
You should always use a <u>passkey</u> , unless your dev recommend using a passkey that is 8 to 16 digits lo more secure it will be.	rice does not support one. We ing. The longer the passkey, the
	Back Next > Cancel

Select the "Use the passkey found in the documentation"

Enter 1234 as the passkey and click on the Next button

8 Add Bluetooth Device Wiza	ird	X			
	Completing the Add Bluetooth Device Wizard				
	The Bluetooth device was successfully connected to your computer. Your computer and the device can communicate whenever they are near each other.				
	These are the COM (serial) ports assigned to your device.				
	Outgoing COM port: COM5				
	Incoming COM port: COM6				
	Leam more about Bluetooth COM ports				
	To close this wizard, click Finish.				
	< <u>B</u> ack Finish Canc	el			

Click on the Finish button

Go to the COM Ports tab of the Bluetooth Devices screen

evices	Options COM		Ports	Hardware
