## PRINTED CIRCUIT OPTIONS

P.C. boards have .039" (1mm) holes and are suitable for soldering or socket connection (with the exception of LED illumination option).

**AK** short p.c. board

**AL** long p.c. board for decimal version (solder terminal)

**ALU** long p.c. board

**ALD** long (interrupted) p.c. board

Dimensions are the same as **AL**.  
Space allows customer to add resistors, diodes, ect.

**AL** long p.c. board

**LS** p.c. board w/solder pins

**Ordering information:** Below is an order format that enables you to 'build your own switch' and specify the correct switch model number by simply selecting from available options shown and filling in the boxes. Consult factory for fully assembled switches.
