SERIES 76, 78 and 90 Military Qualified

FEATURES

• All switches listed on these pages are qualified to MS83504

TOP SEAL

All Grayhill DIP Switch part numbers ending in "S" have a tape seal. This is now the standard for

military qualified DIP switches. If you order by the military "M" number, you will also get the tape seal

version. The exception is the toggle actuated styles which are not top tape sealed.
