## Model #: S124-000

### SCSI/Fibre Channel - SCSI II Single-end Terminator

#### Highlights

- Active terminators include a voltage regulator circuit to compensate for fluctuations in the host adapter

#### Description

Tripp Lite's single ended HD50M passive terminator is the one for all of your external SCSI III applications. Used with SCSI devices which have a HD50 female port. Tripp Lite's passive terminators provide the clearest data signal maximizing signal integrity. Supports fast and ultra single ended devices at 10 or 20 Mbps. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

#### System Requirements

- Any external SCSI device requiring HD50Male terminator at the end of a SCSI chain

#### Package Includes

- Passive external SCSI terminator HD50M SE single-ended

#### Features

- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest Ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life
