

Weidmüller offers a comprehensive range of accessories for its range of heavy duty connectors.

As well as manual crimping tools, we offer crimping machines for processing turned and rolled crimp contacts. Operating and contact removal tools round off the product range.

Furthermore, coding sets, adapter plates and cover plates are included in the range of accessories.

In addition, the range of accessories is supplemented by components for the DSTVK and DSTV-HD through-panelconnectors. Marking material, marking carriers and marking plates round off the range.

RailMate - rail mounting system

The new RailMate rail-mounting system allows connectors to be wired inside switchgear cabinets at a reasonable price

- Snap-on components require no tools for mounting
- Easy to pre-assemble
- Large cable compartment
- Simplified direct wiring on TS 35 rails
- Adjustable for varying number of poles
- Greater stability and functional safety
- Coding ensures error-free connection
- Large marking surfaces

Sets comprise a complete mounting system (without connector):

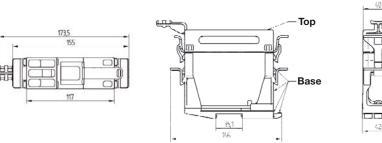

- 1 Base plate with slide
- 1 Tab
- 2 Female connector bracket
- 1 Male connector frame

Technical data

Use with top-hat rail in accordance with DIN EN 50022 - 35 x 7.5 and DIN EN 50022- 35 x 15

Material:	Polycarbonate,	
Colour:	Pebble grey, RAL 7032	
Material property:	Phosphorous and halogene-free	
Flammability class:	V0 in accordance with UL 94	
Temperature range:	-40° C to 125°C

Coding systems

for square connectors with M3 thread

Correct mating of connectors requires a simple, functionally reliable coding system.

The **COS** coding system is suitable for all square connectors. The coding elements are fitted instead of the fixing screws.

A maximum of 8 plug connections can be coded using the parts of any one coding set.

In order to be able to code more than 8 connectors, the number of necessary coding sets must be read from the table. Number of codable connectors (max.)
