

# DM2 Series

## miniSD™ Card Connectors

Bottom mount type

Top mount type

◀ With miniSD Card installed

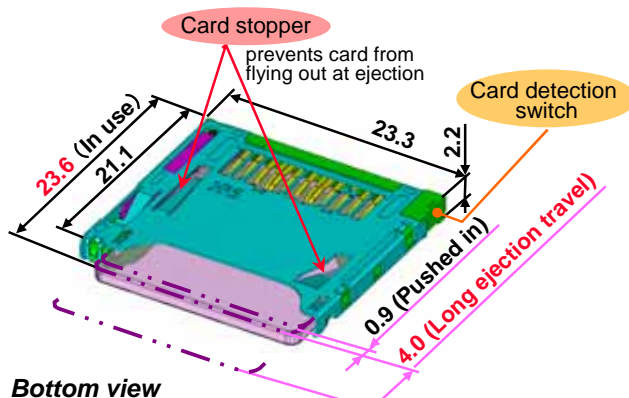

### ◆ Features

1. Card push-in push-out ejection
2. Small size, with long ejection travel of 4 mm
3. Card capturing mechanism prevents card from flying out at ejection.
4. User-friendly mis-insertion prevention
5. Robust structure protects against excess stress from above.
6. Card is firmly locked in use for card fall-out prevention, but released when excessive pulling force is applied.
7. Reliable two-point connection with double contacts
8. Enhanced grounding for noise (EMI) reduction
9. Normally closed card detection switch contributes to saving energy.
10. Satisfies RoHS requirements.

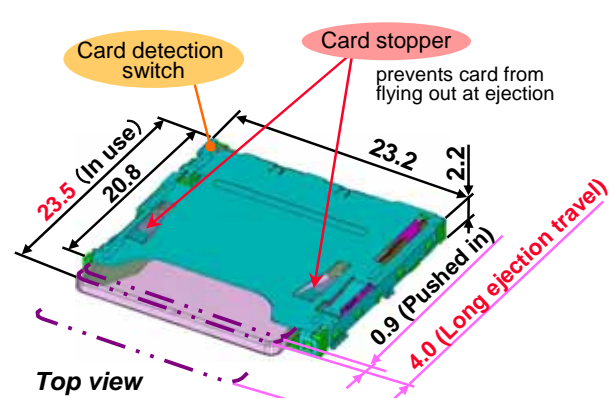

### ◆ Dimensions

The world smallest mounting area with the world smallest depth.\*

**DM2B (Bottom mount type)**

**DM2A (Top mount type)**

\*All dimensions in millimeters. Data as of September, 2005.
