Issue Date: July 28 2009

Product Name:	SMARTCARDS		
	SMARTCARD CONNECTORS		
Product Manager:	HIRAN NAMBOOTHIRI		
Subject:	Process Change Notification		
Distribution:	Global		
Type of Change:	Manufacturing Process Change		
Change Description:	<p>FCI is now introducing Palladium Nickel Alloy with Gold Flash(GXT), as additional Plating Material for Smartcard Connectors series. FCI had developed GXT plating in the 1980's and have used this plating on numerous other connector families over the past three decades. Consequent to this FCI will have the flexibility to offer both types of plating against the same specification. This will have no impact on the performance of the connector and their would be no change in the FCI part numbers</p>		
Reason for Change:	Provide additional plating option		
Affected Parts:	List attached.
