

Switch, Infrared Remote Control w/ Dimmer to 50% for LED Light Panels from Inspired LED

Summarization

Infrared dimmer adopts the advanced micro-control, and is used for controlling LED panel light whose lighting source is LEDs. We could turn on or off the LED panel light with the dimmer, and also adjust the brightness.

Technical Parameters

- Working temperature: -20-60 °C
- Supply voltage: DC12V
- Output: 1 channel
- Connecting mode: common anode
- External dimension: L89xW70xH28 mm
- Packing size: L160xW95xH51 mm
- Net weight: 150g
- Gross weight: 185g
- Static power consumption: <1W
- Output power: 12V< 50w

Safety Information:

- Supply voltage of this product is 12 Volts DC, do not exceed
- Shorting output wires may cause damage to dimmer
- Always observe proper polarity when connecting power and load
- For indoor use only – this product is not waterproof or weatherproof
