

SX-3000GB Gigabit USB Device Server

Easily Connect and Share Virtually Any USB Device on a Network

Features & benefits:

Fast - World's First USB Device Networking with Gigabit Support:

Based on Silex's USB IP technology, SX-3000GB is the world's first Gigabit USB device server, achieving the industry's highest network USB throughput delivering smooth network connectivity to your USB devices.

Easy - Turn Any Standard USB Devices into a Network USB Device:

The SX-3000GB ensures full compatibility with all of the functionality of virtually any USB Device and it's software applications. Popular applications include networking of USB Printers and Multifunction Printers, scanners, hard drives, speakers and TV tuners.

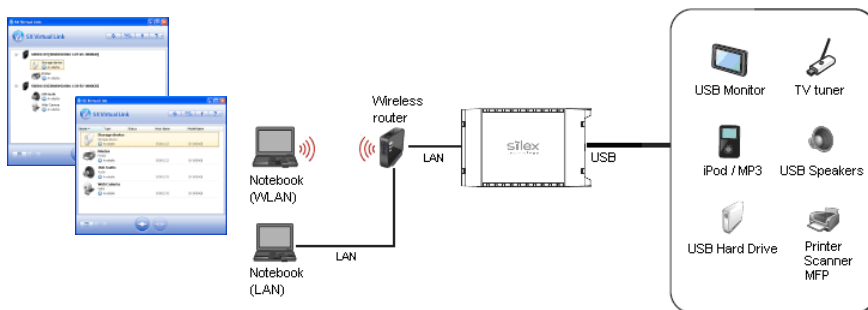

Smart - Manage Network USB Connectivity Intelligently:

Included with SX-3000GB, SX-Virtual Link is a client software that emulates a USB port on the client PC when connected with a USB device. This method ensures full compatibility with the USB device driver and software applications.

Benefits:

- Broadest Printer Compatibility
- Supports all Functions of AIO Printers
- Bidirectional Status/Error Messages including Ink and Toner levels
- Supports any File Format for Storage
- Supports virtually any USB Peripheral

Networking example:
