DOMED SEALING NUT

SEALING WASHER (INCLUDED)

A

MOUNTING HOLE

Foam Sealing Washer

Locking Fingers on Body Accommodate Wide Range of Panel Thicknesses

Extended Ferrule Provides Easy Insertion and Liquid Tight Seal

Special Clip Provides Maximum Pull Out Resistance

Domed Sealing Nut Designed for Easy Hand Tightening

"NO DISASSEMBLY REQUIRED"

- Multiple sizes for use with Heyco-Flex Conduit and Tubing. See pages 1-1 and 1-2.
- Assembly friendly! The installer simply pushes the conduit or tubing onto the ferrule, then tightens the domed sealing nut. This completed assembly can then be snapped into the panel with fingertip pressure.
- No threading of the conduit or tubing required to install. This eliminates the possibility of cutting the conduit and creating leak paths.
- Complete conduit/fitting system is reusable. Conduit will not wind tight onto the connector during assembly and can be easily removed by pulling while turning in a clockwise direction.
- Suitable for indoor/outdoor use; for original equipment manufacturers or field installers.
- Resists salt water, weak acids, gasoline, alcohol, oil, grease, and common solvents. This feature is not assessed by UL certification or testing.
- Protection class IP 68 up to 70 psi (5 bar) water pressure.

1 Push-On with a twist

2 Hand tighten

Quick Specs

Material	6/6 Nylon
Certifications	(UL) Listed under Underwriters' Laboratories File E28430
	(SA) Certified by Canadian Standards Association File LR84579 and LR81067
Flammability Rating	94V-2
Material Temperature Index	257°F (125°C)–Maximum temperature on part not to exceed 221°F (105°C)
