LED Indicators

1 have indicators that are identical to the present system and clearly visible up to a 45 degree offset from vertical with office environment ambient lighting. The status is reflected in the indicator color.

The DC_OK LED is bicolor. It shall light green if the DC output is within specification, and amber if the output falls out of specification.

Green if the AC is within specication and off when out of specification.
Note: With 5 V standby, Amber also indicates that PSU is in standby mode/output off.

AC_OK Open collector 0.5 V maximum at 10 mA.
DC_OK Open collector 0.5 V maximum at 10 mA.
PS_INHIBIT/ENABLE Signal 0.0 - 0.5 V contact clocure, output OFF
