

It glows when it blows.

*DAY OR NIGHT WHEN A FUSE BLOWS
"SMART GLOW FUSE" INDICATES
IMMEDIATELY WHICH FUSE NEEDS
REPLACING. THE SMART GLOW FUSE IS
THE INTELLIGENT CHOICE.*

IDEAL for troublesome circuits
where fuses often blow

SNAPS into place
without the use of tools

EASY identification of blown fuses
in hard to reach locations

COLOR-CODED amperage ratings
for instant identification

CONVENIENT packaging options
include popular sizes and multipacks

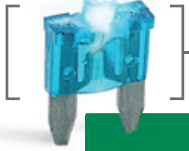

Smart Glow fuses are innovative automotive style fuses (ATO, Mini, Maxi and glass tube) that feature an indicator light that glows when the fuse is blown, saving time to troubleshoot an open circuit.

Hard to find blown fuses in dimly-lit dashboards are easier to identify, giving fleet maintenance departments the ability to quickly return vehicles to operation.

They are designed to be drop-in replacements for existing automotive applications, but can be used in any low voltage application up to 100 amperes where indication is beneficial.
