Change in Tape & Reel Cover Tape for Bourns® MF-SM Series, MF-SM/250 Series and MF-SMHT Series

The tape and reel cover tape for Bourns® MF-SM, MF-SM/250 and MF-SMHT series is being changed to the new 3M™ Universal Cover Tape (UCT). The UCT is an innovative cover tape with design features that address peel variation allowing removal of the center section only, above the component pockets. The cover tape edges remain adhered to the carrier. The introduction of UCT is intended to improve the cover tape sealing quality.
