Derating of Rated Current

When NFM3DP series is used in operating temperatures exceeding +85°C, derating of current is necessary.

Please apply the derating curve shown in chart according to the operating temperature.

Caution/Notice

Caution (Rating)

Do not use products beyond the rated current and rated voltage as this may create excessive heat and deteriorate the insulation resistance.

Notice

Solderability of Tin plating termination chip might be deteriorated when low temperature soldering profile where peak solder temperature is below the Tin melting point is used. Please confirm the solderability of Tin plating termination chip before use.
