## DECORA STYLE WALLPLATES

### Features and Benefits

Decora Style Wallplates are designed to fit standard decora style electrical cover plates in applications where voice and data ports are used instead of electrical outlets.

Available in two and four port configurations, Decora Style Wallplates utilize DataGate Plus Jacks and single-position fiber and copper modules. Decora Style Wallplates are UL-approved and are rear-loading to resist tampering. Each wallplate comes supplied with alpha icons which are recessed when installed. Voice and data icons are also available. All icons are available in multiple colors to match DataGate Plus Jacks and to assist in application recognition.

- Utilize DataGate Plus Jacks and single-position fiber and copper modules
- Fit standard decora style electrical cover plates
- Clear concise labeling
- Rear loading to reduce tampering
- Hinged screw caps prevent misplacement

**Approvals:** UL 1863

**Material:** Thermoplastic UL94V-0

## WALL PHONE PLATES

### Features and Benefits

The wall phone plate series is composed of two plate designs, the 6W style or the DataGate Plus Jack style. The 6W Wall Phone Plate utilizes 110 Style termination and is available in plastic or stainless steel. The DataGate Wall Phone Plate accommodates the DataGate Plus Jack and is available in stainless steel. The DataGate Plus Jack is designed with an innovative shutter with spring-loaded pressure which will pop out an improperly placed patch cord. The DataGate Plus Jack is available in multiple colors for Category 3, Category 5e and Category 6 and is purchased separately from the DataGate Wall Phone Plate.

- Utilized for wall mounted phone installations
- Low profile for inconspicuous network connecting
- DataGate Stainless Steel Wall Phone Plate accommodates rear-loading DataGate Plus Jacks for reduced tampering

**Approvals:** UL 1863

**Material:** Thermoplastic UL94V-0
