## GPS/Telematics Antennas

www.lairdtech.com

Laird Technologies is the world-leader in the design and supply of customized performance-critical products for wireless and other advanced electronic applications. Laird Technologies partners with its customers to help find solutions for applications in various industries such as:

Aerospace

**Automotive Electronics** 

Computers

Consumer Electronics

**Data Communications** 

Medical Equipment

Military

Network Equipment

Telecommunications

Laird Technologies offers its customers unique product solutions, dedication to research and development and a seamless network of manufacturing and customer support facilities located all across the globe.

# Laird Technologies GPS/Telematics antennas provide low profile, high performance and cost effective mobile communication solutions

Laird Technologies GPS/Telematics antennas are low profile, high performance and cost-effective solutions for your mobile communications needs. Available in combinations that cover all primary cellular frequencies plus GPS and Satellite Radio, Laird Technologies GPS/Telematic antennas feature small form factors allowing easy installation virtually anywhere inside or outside a vehicle. Phantom AVL/GPS antennas are currently utilized by ocean bound freighters monitoring temperature and data while withstanding extreme temperatures, salt water and vibration. With integrated research, tooling, molding, assembly and accelerated life testing facilities around the world, Laird Technologies' engineers will quickly and efficiently create solutions to a multitude of wireless challenges.

Other connector options available

### Low profile multi-band GPS GPST821/18503P

- Patented field diversity Phantom<sup>®</sup> technology ensures uninterrupted voice and data transmissions in urban canyons and rural drop off areas
- 27 dB active GPS patch with high sensitivity for accurate timing and locating
- Low profile design prevents tampering and is visually pleasing

Adhesive mount option available on Low Profile GPS Antennas

#### Survivor<sup>™</sup> Dual Band GPS antennas

 Highly durable molded housing design survives the harshest of environments and applications - traditional whip with spring options available.

NEW

- 26dB active GPS patch antenna provides high performance and sensitivity for accurate locating and timing
- Multiple applications from heavy equipment to luxury automobiles

Other connector and cable options available

Other connector and cable options also available

#### Internal Mercury<sup>™</sup> Tri-band GPS antennas

- Keeps track of your fleet while providing multiple radio frequency wireless communications.
- Available in AMPS, PCS, DCS, GSM and UMTS tri-band configurations
- Low-profile stealth design installs on dashboards or rear decks
- Measures only 5"L x 2.5"W x .5"H

#### NEW

#### Hexband Multiblade Internal GPS Antenna

- Same performance as original Internal Mercury PLUS 6 Band flexibility with GPS
- Features more compact housing only 5.4"L x 1.25"W x .5"H

#### External Mercury<sup>™</sup> Tri-band GPS antenna:

- Low-profile weatherproof design is an excellent solution for trucks, trailers and tall vehicles
- Transmits voice and data while measuring only 5.625" x 5.125" x .875"
- Sleek durable housing mounts on a ground plane or no ground plane surface

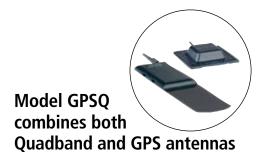

#### Multi-Band MicroBlade™

- Dual and Quad band models available
- Antennas measure only 4.94" x 1.34" x .25"

#### Standard NMO Mount GPS antennas GPSU15M

- Small Size 11/2" tall x 2 5/8" diameter
- 3 or 5 Volt bias
- Gold Plated Pushpin Contact

#### Trunk Mount GPS and Add On Bracket TM8GPS GPSNMOAO

#### NEW

Model

Description

#### Micro GPS **GPS15MGSMB**

- Flexible 3 and 5 volt operation
- Bottom or side exit
- Water proof
- Antenna provided with both magnetic and adhesive base options

Overall Connector Coax

#### GPSU1575P • Low profile - 1.5" tall

Low Profile GPS antenna

• P mount

#### NEW

#### GPS Antenna + Receiver

• Low-profile weatherproof design for interior or exterior mounting

- Magnet, adhesive and velcro mounting options
- Features SiRFstarIII™ chip with exceptional sensitivity and accuracy
- USB or PS2 Connector

#### **NEW**

#### **GPS Receiver Module**

- 20 channel GPS receiver
- 200,000 effective correlators for fast TTFF
- Built-in WAAS/EGNOS Demodulator
- Support NMEA-0183 v2.2 data protocol and SiRF binary code

#### **NEW**

#### **GPS Glass Mount Antenna** SPS15GLSM

- Installs behind rearview mirror for covert installation
- Antenna tuned for interior glass mount
