General data

RAFIX 16 control component range

- For a mounting hole diameter of 16.2 mm to IEC 60947
- 250V/6A max.
- Water-jet proof IP65
- Contact blocks: Gold and silver contacts with quick-connect terminals 2.8 x 0.8 mm; Option: PCB plug-in socket
- 3 collar shapes, low-profile design
- The lamps of the pushbuttons can be replaced from the front or rear.
- The contact blocks snap directly onto the actuators without a coupling element and can be easily removed by turning = cost reducing assembly.

The specified data apply only if actuators/signal indicators are combined with contact blocks and lamp sockets within the same product range.

General information

RAFIX 16 is a complete control component series for a mounting hole diameter of 16.2 mm. It enables you to design attractive control panels with a minimum of space requirements and at the same time sufficiently large actuating areas.

Actuators

- Mounting hole \varnothing 16.2 mm to DIN EN 50 007

- Locating lug (easily removable).
The locating lug can be easily removed using a screwdriver.
- Degree of protection IP 65 on panel.
This is achieved by a reliable, tried and tested special seal.

RAFIX 16 actuators

- Grid spacing 25 x 25 mm
- 7 mm height from front panel
- Three collar shapes, in black
 - Square 25 x 25 mm
 - Round 25 mm
 - Square 25 x 25 mm, alignable in flush fitting rows, which avoids accumulation of dirt between the collars.

Contact blocks

- Standard: for actuators with one-way operation
 - with latching mechanism (latching switch)
 - without latching mechanism (momentary switch)
- Universal: for E-stop pushbuttons and for actuators with two-way operation, e. g. selector switches
 - without latching mechanism

Contact material

- Silver contacts for mains voltage
- Gold contacts for electronic circuits

Illumination

- Wedge base lamp or LED with socket W 2 x 4.6 d

Assembly

- Single-handed cost-effective assembly method
- Panel thickness 0.5 ... 5 mm
- Fixing with hexagon nut
- Starting torque 1.2 Nm max.

Shock-resistance according to IEC 600 68-2-27

- Shock amplitude: \leq 50 g
- Shock time: 11 ms
- Shock type: half sinusoidal

Environment conditions

- Constant environment: acc. to IEC 600 68-2-3 and 2-30
- Variable environment: acc. to IEC 600 68-2-14 and 2-33

Temperature range

- Operating temperature:
 - non-illuminated: - 25 ... + 70 °C
 - illuminated: - 25 ... + 55 °C
- Storage temperature: - 40 ... + 85 °C

Dimensional Drawings RAFIX 16

Actuator with contact block resp.
signal indicator with lamp socket

... with protection cage

... with multipole connector

... with PCB plug-in socket

Assembly/Disassembly

Assembly

- Insert the actuator through the panel cut-out from the front.
- If there is no locating indent provided in the cut-out, first remove the locating lug using a screwdriver.
- Screw the hexagon nut onto the actuator or signal indicator from the rear and tighten it using a fixing spanner.
- Slide the contact block onto the actuator from the rear with an audible click.
- Install protection against accidental contact, if applicable.
- Connect quick-connect terminals.
- Alternatively, connect crimped female quick-connect terminals to multipole connector and plug it onto the contact block.
- Alternatively, connect the plug-in socket soldered onto the PCB.

Disassembly

- Turn the contact block by approx. 20° to the left or right – the latches open.
 - Pull the contact block off towards the rear (commercially available flat nose pliers recommended).
- To dismount a PCB, pull the PCB with the soldered plug-in sockets off the mounted contact blocks.

Legending

All elements can be labelled using a separate label holder. The label holder is mounted together with the actuator/ signal indicator. For order numbers and standard legend, refer to the section "Legending".

Non-illuminated push-buttons and mushroom-headed pushbuttons can be printed or laser engraved.

All illuminated pushbuttons and the majority of the signal indicators can be labelled by means of legend inserts. The legend inserts are fitted between actuator body and lens and can be easily changed.

RAFI can also provide you custom legending. Price and delivery on request.

Lamp replacement from front

Use the disassembly tool to grasp the actuator body and pull it towards the front with the lens. Alternatively, you can use a screwdriver in place of the disassembly tool. In this case, insert the screwdriver between actuator body and collar and carefully raise the actuator body. Replace the lamp using a lamp extractor or a suitable insulation sleeve.

Lamp replacement from front

Technical data

General information

Form of lens mushroom
 Colour of lens see order block
 Form of collar see order block

Dimensions

Length of collar see order block
 Diameter of collar see order block
 Key grid 25 x 25 mm
 Width of collar see order block
 Overall height see order block
 Mounting depth 44.7 mm
 Mounting hole 16.2 mm

Mechanical design

Mounting ring nut
 Contact function according to contact block
 Contact arrangement according to contact block
 Illuminability see order block

Mechanical characteristics

Operating travel 3 mm
 Robustness min. 100 N

Other specifications

Operating life 2000000
 Degree of protection from front side IP65
 Ambient temp. operating min. -25 °C
 Ambient temp. operating without lamp max. +70 °C
 Storage temperature min. -40 °C
 Storage temperature max. +85 °C
 Resistance to constant environment according to IEC 600 68-2-3 and 2-30
 Resistance at variable environment according to IEC 60068-2-14 and 2-33

Accessories:

Legend insert, blank, use only for transparent lenses: 5.70.637.000/2000

The protruding collar offers protection against inadvertent operation and thereby fulfils the safety requirements of various machinery manufacturers, particularly in the printing industry.

For the "latching" function, please use the standard contact block with "latching" function.

Storage temperature max. +85 °C
Resistance to constant environment according to IEC 600 68-2-3 and 2-30
Resistance at variable environment according to IEC 600 68-2-14 and 2-33

Typical accessories RAFIX 16 potentiometer drive

Description	Photo	Order no.	Additional accessories see page
Label holder, flush, for square collar		5.07.620.004/0000	2 - 62
Fixing spanner for hexagon nut		5.58.002.034/0000	2 - 61

For additional accessories, refer to the chapter "RAFIX 16 special accessories".

RAFIX 16 potentiometer drive, square collar

Form of lens	Form of collar	Colour of handle	Order no.
handle	square	black	1.30.077.001/0000

Technical data see page 2 - 32

RAFIX 16 potentiometer drive, round collar

Form of lens	Form of collar	Colour of handle	Order no.
handle	round	black	1.30.077.021/0000

Technical data see page 2 - 32

RAFIX 16 potentiometer drive, square collar, alignable without gaps

Form of lens	Form of collar	Colour of handle	Order no.
handle	square alignable	black	1.30.077.041/0000

Technical data see page 2 - 32

RAFIX 16 buzzer

2

RAFIX 16

Technical data

General information

Form of lens flat lens
 Colour of lens opaque black
 Form of collar see order block
 Sound see order block

Input current see order block
 Frequency of intervall beep 2300 Hz

Dimensions

Length of collar see order block
 Diameter of collar see order block
 Key grid 25 x 25 mm
 Width of collar see order block
 Overall height 6.95 mm
 Mounting depth 30.5 mm
 Mounting hole 16.2 mm

Mechanical characteristics

Robustness min. 100 N

Mechanical design

Mounting ring nut

Other specifications

Degree of protection from front side IP65
 Ambient temp. operating min. -25 °C
 Ambient temp. operating max. +70 °C
 Storage temperature min. -40 °C
 Storage temperature max. +85 °C
 Resistance to constant environment according to IEC 600 68-2-3 and 2-30
 Resistance at variable environment according to IEC 60068-2-14 and 2-33

Acoustic characteristics

Sonic pressure, 1 m distance min. see order block

Electrical characteristics

Operating voltage DC 24 V

Typical accessories RAFIX 16 buzzer

Description	Photo	Order no.	Additional accessories see page
Fixing spanner for hexagon nut		5.58.002.034/0000	2 - 61

For additional accessories, refer to the chapter "RAFIX 16 special accessories".

RAFIX 16 buzzer, square collar

Sound	Operating voltage DC	Input current	Sonic pressure, 1 m distance min.	Order no.
continuos beep	24 V	25 mA	70 dB	1.30.078.001/0100

Technical data see page 2 - 34
12 V DC available on request.

2

RAFIX 16 buzzer, round collar

Sound	Operating voltage DC	Input current	Sonic pressure, 1 m distance min.	Order no.
continuos beep	24 V	25 mA	70 dB	1.30.078.021/0100

Technical data see page 2 - 34
12 V DC available on request.

RAFIX
16

RAFIX 16 buzzer, square collar, alignable without gaps

Sound	Operating voltage DC	Input current	Sonic pressure, 1 m distance min.	Order no.
continuos beep	24 V	25 mA	70 dB	1.30.078.041/0100

Technical data see page 2 - 34
12 V DC available on request.

RAFIX 16 signal indicator

RAFIX 16

Technical data

Dimensions

Length	see order block
Width	see order block
Height	see order block
Mounting depth (with actuator / indicator)	see order block

Mechanical design

Mounting	snap on actuator
Contact system	bridge-contact self cleaning
Contact materials	Au
Contact arrangement	see order block
Contact function	see order block
Lamp socket	see order block
Terminals	quick connector 2.8 x 0.8
Terminal marking	according to DIN 50013, X1 = +, X2 = -
Operating travel	3 mm
Robustness	100 N

Mechanical characteristics

Robustness	acc. IEC 60947-5-5
------------	--------------------

Electrical characteristics

Rated voltage min.	see order block
Rated voltage max. (AC/DC)	42 V
Rated current min.	see order block
Rated current max.	see order block

Operating life switching element (momentary)	2000000
Contact resistance when new max.	50 mΩ

Other specifications

Protection class	II
Shock resistance acc. to IEC 600 68-2-27	see order block
Ambient temp. operating min.	-25 °C
Ambient temp. operating without lamp max.	+70 °C
Ambient temp. operating with lamp max.	+55 °C
Storage temperature min.	-40 °C
Storage temperature max.	+85 °C
Colour code	white bottom
Resistance to constant environment	IEC 600 68-2-3 and 2-30
Resistance at variable environment	IEC 600 68-2-14 and 2-33
Mechanical operating life latching (operations)	see order block
Resistance to vibrations acc. to IEC 600 68-2-6	10 g at 20 ... 500 Hz
Flame class acc. to UL 94	V 0
Hot wire ignition acc. to IEC 60695-2-1	yes

Typical accessories RAFIX 16 contact blocks with gold contacts

Description	Photo	Order no.	Additional accessories see page
Filament lamp, W 2 x 4.6d base, 24 - 30 V		1.90.120.005/0000	5 - 4

RAFIX
16

RAFIX 16 standard contact block, gold contacts, with lamp socket

2

RAFIX
16

Contact function	Contact arrangement	Lamp socket	Rated voltage max. (AC/DC)	Rated current max.	Order no.
momentary	1 NC + 1 NO	W 2 x 4.6d	42 V	0.25 A	1.20.122.011/0000
momentary	2 NO	W 2 x 4.6d	42 V	0.25 A	1.20.122.012/0000
latching	1 NC + 1 NO	W 2 x 4.6d	42 V	0.25 A	1.20.122.051/0000
latching	2 NO	W 2 x 4.6d	42 V	0.25 A	1.20.122.052/0000

Technical data see page 2 - 42

Standard contact blocks have one common contact chamber and one actuator plunger. Contact blocks with "latching" contact function are used as switches. When combined with pushbuttons and mushroom actuators, the switching position is visible, releasing is effected by actuating again.

RAFIX 16 standard contact block, gold contacts, without lamp socket

Contact function	Contact arrangement	Lamp socket	Rated voltage max. (AC/DC)	Rated current max.	Order no.
momentary	1 NC + 1 NO		42 V	0.25 A	1.20.122.031/0000
momentary	2 NO		42 V	0.25 A	1.20.122.032/0000

Technical data see page 2 - 42

Standard contact blocks have one common contact chamber and one actuator plunger. Contact blocks with "latching" contact function are used as switches. When combined with pushbuttons and mushroom actuators, the switching position is visible, releasing is effected by actuating again.

RAFIX 16 universal contact block, gold contacts, with lamp socket

Contact function	Contact arrangement	Lamp socket	Rated voltage max. (AC/DC)	Rated current max.	Order no.
momentary	1 NC + 1 NO	W 2 x 4.6d	42 V	0.25 A	1.20.123.011/0000
momentary	1 NO	W 2 x 4.6d	42 V	0.25 A	1.20.123.013/0000

RAFIX 16 standard contact block, silver contacts, with lamp socket

2

RAFIX 16

Contact function	Contact arrangement	Lamp socket	Rated insulation voltage U_i , AC	Ohmic rated current I_R	Order no.
momentary	1 NC + 1 NO	W 2 x 4.6d	250 V	6 A	1.20.122.001/0000
momentary	2 NO	W 2 x 4.6d	250 V	6 A	1.20.122.002/0000
momentary	2 NC	W 2 x 4.6d	250 V	6 A	1.20.122.003/0000
latching	1 NC + 1 NO	W 2 x 4.6d	250 V	6 A	1.20.122.041/0000
latching	2 NO	W 2 x 4.6d	250 V	6 A	1.20.122.042/0000

Technical data see page 2 - 46

Standard contact blocks have one common contact chamber and one actuator plunger. Contact blocks with "latching" contact function are used as switches. When combined with pushbuttons and mushroom actuators, the switching position is visible, releasing is effected by actuating again.

RAFIX 16 standard contact block, silver contacts, without lamp socket

Technical data see page 2 - 46

Universal contact blocks have two separate contact chambers and two actuator plungers. This makes it possible to switch two different polarities. The NC contacts are positive opening contacts to IEC 60947-5-1.

NEW

RAFIX 16 contact blocks AS-Interface, standard

2

General data

The AS-Interface standart contact block is a slave with 2 input / 1 output lines for the AS-I fieldbus system. It is designed for the extended address range and meets the AS-I profile S-B.A.B.E (2 inputs / 2 outputs).

More information on request.

NEW

RAFIX 16 contact blocks AS-Interface, E-stop, Safety at Work

2

General data

The AS-Interface E-stop contact block is a slave for the AS-I fieldbus system. It is designed for the standard address range and meets the AS-I profile S-7.B.E (safety slave with max. 4 input / 4 output lines). Up to 30 of these contact blocks can be linked to one AS-I line, the 31st member is a safety monitor. The four (safe) input lines are used for the safe transfer of the E-stops switching position signal. The (not safe) output line is used to control the lamp in the E-stop or for an external signal lamp (option).

The coupling contact is an additional safety feature. It supervises the coupling between E-stop actuator and contact block and informs the AS-I bus, when this connection is interrupted.

PCB plug-in socket

RAFIX
16

Short text	Feature 1	Feature 2	Order no.
PCB plug-in socket, 10 contacts (universal application)	22 mm	24 mm	5.05.510.644/0000
PCB plug-in socket, 6 contacts (2 NO, lamp socket)	22 mm	24 mm	5.05.510.645/0000
PCB plug-in socket, 6 contacts (1 NC, 1 NO, lamp socket)	22 mm	24 mm	5.05.510.646/0000
PCB plug-in socket, 6 contacts (2 NC, lamp socket)	22 mm	24 mm	5.05.510.647/0000
PCB plug-in socket, 4 contacts (2 NC)	22 mm	24 mm	5.05.510.648/0000
PCB plug-in socket, 2 contacts (lamp socket)	22 mm	24 mm	5.05.510.649/0000

For soldering onto PCBs. The PCB carrying the plug-in sockets is plugged onto the contact blocks/lamp sockets. Additional fixing of the PCB to the contact block is not required. Solder terminals for PCB 3.5 mm long, for 1.3 mm hole.

Multipole connector

Short text	Feature 1	Feature 2	Order no.
Multipole connector	21.8 mm	23.2 mm	5.05.510.421/0000

Makes it possible to simultaneously connect all terminals of a contact block. Can be fitted with 2.8 mm female quick-connect terminals.

Female quick-connect terminal DIN 46340-B 2.8-1-MS

Short text	Feature 1	Feature 2	Order no.
Female quick-connect terminal DIN 46340-B 2.8-1-MS			5.37.540.024/8622

With latching detent for mating with a multipole connector.

Plug distributor

Short text	Feature 1	Feature 2	Order no.
Plug distributor			5.37.540.029/6000

For mounting on the quick-connect terminals of contact blocks. The double number of contacts facilitates loop-through.

Protection against contact

Short text	Feature 1	Feature 2	Order no.
Protection against contact			5.55.103.105/0100

Assembly sequence: Snap the protection against contact onto the contact block, connect wires to quick-connect terminals of contact block, pull protection against contact over the terminals; this ensures finger-proof condition to VBG 4.

2

Label sheet for housings			5.40.451.283/0000

- Attractive plastic housing to accommodate up to 4 control components
- 2 cable entries prepared: 1-,2-,3-part: M20x1,5, 4-part: M25x1,5
- Degree of protection IP 65 to DIN
- All grey housings with overlay, legending possible with legend inserts
- Wall mounting with 2 screws through housing bottom prepared
- Dimensions (feature 1) x 100 mm x 74 mm
- Accessories: 50 pre-perforated legend inserts on a DIN A4 sheet for printing with a PC printer
- Housing with other cut-outs, e. g. for RAFIX 16F, on request.

General data

RAFIX 16 F control component range

- Extremely low profile
- 250 V/6 A max.
- Water-jet proof IP65
- Contact blocks: Gold and silver contacts with quick-connect terminals 2.8 x 0.8 mm; Option: PCB plug-in socket
- The lamps of the pushbuttons can be replaced from the front or rear.
- The contact blocks snap directly onto the actuators without a coupling element and can be removed by turning = cost reducing mounting.
- Versions with round collars on request
- **For contact blocks and accessories, refer to RAFIX 16.**

RAFIX
16 F

The specified data apply only if actuators/signal indicators are combined with contact blocks and lamp sockets within the same product range.

General information

RAFIX 16 is a complete control component series with low profile design.

Actuators

- Panel cut-out \varnothing 22,3 mm to IEC 60 947-5-1
- Panel cut-out \square 23,1 mm

- Locating lug (easily removable).
The locating lug can be easily removed using a screwdriver.
- Degree of protection IP 65 on panel.
This is achieved by a reliable, tried and tested special seal.
- Grid spacing 25 x 25 mm
- Low profile, only 1.7 mm
- Thickness of front panel 0.5 ... 3.5 mm
- Fixing with hexagon nut
- Starting torque 1.2 Nm max.

Contact blocks

- Standard: for actuators with one-way operation
 - with latching mechanism (latching switch)
 - without latching mechanism (momentary switch)
- Universal: for E-stop pushbuttons and for actuators with two-way operation, e. g. selector switches
 - without latching mechanism

Contact material

- Silver contacts for mains voltage
- Gold contacts for electronic circuits

Illumination

- Wedge base lamp or LED with socket W 2 x 4.6 d

Shock-resistance according to IEC 600 68-2-27

- Shock amplitude: ≤ 50 g
- Shock time: 11 ms
- Shock type: half sinusoidal

Environment conditions

- Constant environment: acc. to IEC 600 68-2-3 and 2-30
- Variable environment: acc. to IEC 600 68-2-14 and 2-33

Temperature range

- Operating temperature:
 - non-illuminated: - 25 ... + 70 °C
 - illuminated: - 25 ... + 55 °C
- Storage temperature: - 40 ... + 85 °C

General data

RAFIX 22QR control component range

- For a mounting hole diameter of 22.3 mm to IEC 60947
- 250V/10A max.
- Water-jet proof IP65
- 2 collar shapes
- The lamps of the pushbuttons can also be replaced from the front
- The contact blocks (silver or gold contacts) snap onto the actuators with a coupling
- Screw, cage clamp, quick connect terminals or RJ12 connector
- 3 NC + 3 NO max.
- **NEW: Contact blocks for AS-Interface connection**

The specified data apply only if actuators/signal indicators are combined with contact blocks and lamp sockets within the same product range.

Contact blocks marked with different colours for ease of identification in stock and when connecting.

- NC contacts: red
- NO contacts: green
- NC/NO contacts: red/green
- Lamp socket: black
- Silver contacts: basic housing colour is black
- Gold contacts: basic housing colour is grey
- The terminals associated with a contact pair are colour coded on the connection side and marked with the respective contact numbers.

2

RAFIX 22 QR

The lamps of pushbuttons and signal lamps can be replaced from the front. This method saves time and increases safety since it eliminates the need for accessing the machine/control station interior and handling live cables for lamp replacement. After unscrewing the front ring, the lens can be removed and the lamp replaced.

The components feature a removable locating lug. If installed without locating lug, the ring nut with claw can be used. Accurate alignment of the actuator can be achieved behind the front panel. The cast-on collar seal can not get lost nor be twisted during installation and allows single-person assembly: the actuator is held in the mounting hole by the cast-on seal and can then be fixed by screwing from the rear.

First, snap the lamp socket and contact blocks into the coupling. Then snap the assembly on to the actuator. To release it, the bayonet must be pressed (prevents inadvertent releasing at the same time).

Terminals

The RAFIX 22 QR contact blocks are available in different connection styles as required for your application:

- **Screw terminals**
The terminals are open and the captive screws are mounted in the terminal recess.
- **Quick connect/solder terminals 6.3 x 0.8 mm**
- **Spring-type terminals**
Simply insert a screwdriver to open the terminal, insert the cable and remove the screwdriver to close the terminal.
- **RJ 12-terminal**
Just plug in the cable with a RJ 12 connector.
- **AS-Interface**

Assembly

Screw terminals

Spring-type terminals

Insert the wire.

Open the terminal.

Tighten the screw.

Insert the wire.

Done.

Remove the screwdriver.

2

Your advantage:

This offers your savings in three ways:

- Drastically reduced assembly time thanks to wire insertion from the rear, i.e. no more bending and lateral insertion of the wires required.
- You save material: No wire end sleeves are required.
- You save the time previously required for mounting the wire end sleeves.

RAFIX
22 QR

Sealed for life against humidity and dirt

The special seal reliably prevents moisture, oil and dust from penetrating to the contact block. In contrast to other sealing types which move up and down the shaft, this special seal is firmly seated on the housing (degree of protection IP 65 to DIN).

Versatility of design for customized panels

The RAFIX 22 QR system does not only have a particularly low profile and is also available in many different versions. Your design options for your customized panels are nearly unlimited thanks to the interchangeable front rings and lenses. In this way you can achieve an attractive design while ensuring safe operation of your equipment at the same time.

RAFIX 22 QR components are available either with a round or with a square collar.

RAFIX 22 QR

The RAFIX 22 QR control component range meets all the technical requirements and current standards for control units. The system is of modular design. Actuators, contact blocks and lamp sockets can be combined freely. This means that you may

implement modifications of design or configuration even at the last minute. An additional positive effect is the reduction of stockholding costs.

Sequence of assembly/disassembly at screw, spring-type and quick connect terminals

- Fix the actuator in the front panel with the ring nut.
- Snap the individual elements (a maximum three contact blocks or two contact blocks together with a lamp socket) in the coupling. You can install them on any assembling axis.
- Insert the lamp or LED into the lamp socket.

- Snap the coupling with the contact blocks on to the actuator.
- Connect the cables.
- Disassembly is performed in reverse order. To remove the coupling from the actuator, the latch lever must be pressed (by hand or with a screwdriver).

Panel cut-out according to IEC 60947-5-1

All actuators are provided with a locating lug which may be removed using a screwdriver for installation into mounting holes if required.

With a grid spacing of 30 mm horizontally and 50 mm vertically, the collars of the square actuators touch each other. We recommend to use the same grid spacing also for the round collar shapes (IEC 60947).

Technical data

General information

Form of lens see order block
 Colour of lens see order block
 Colour of front ring see order block
 Form of collar see order block

Dimensions

Length of collar see order block
 Width of collar see order block
 Overall height see order block
 Mounting depth with contact block without cable 56.4 mm
 Mounting hole 22.3 mm
 Key grid 50 x 30 mm
 Diameter of collar see order block

Mechanical design

Mounting ring nut
 Contact function see order block
 Illuminability see order block

Mechanical characteristics

Operating travel 4 mm

Operating force max. approx. 5 N for 1 switching element
 Robustness min. 100 N

Other specifications

Operating life (operations) 1 million momentary/0.5 million latching
 Degree of protection from front side IP65
 Ambient temp. operating min. -25 °C
 Ambient temp. operating max. +70 °C
 Storage temperature min. -40 °C
 Storage temperature max. +80 °C
 Resistance to constant environment according to IEC 600 68-2-3 and 2-30
 Resistance at variable environment according to IEC 600 68-2-14 and 2-33

General data

The illuminated selector switches are provided with translucent handle markings. These are opaque on the non-illuminated versions.
For the coloured illumination of the translucent handle markings please use the contact blocks with lamp sockets BA 9s in combination with coloured LED (see chapter 5 "Accessories").

Mechanical design

Mounting ring nut
 Contact function see order block
 Illuminability see order block

Mechanical characteristics

Operating force max. approx. 5 N for 1 switching element
 Robustness min. 100 N

Electrical characteristics

Protection class II

Other specifications

Operating life 1000000
 Degree of protection from front side IP65
 Storage temperature min. -40 °C
 Storage temperature max. 80 °C
 Resistance to constant environment according to IEC 600 68-2-3 and 2-30
 Resistance at variable environment according to IEC 600 68-2-14 and 2-33

RAFIX 22 QR

Typical accessories RAFIX 22 QR mushroom-headed pushbutton

Description	Photo	Order no.	Additional accessories see page
RAFIX 22 QR contact block with silver contacts, with coupling, without lamp socket, screw terminals, 1 NC + 1 NO		1.20.124.017/0000	2 - 128
RAFIX 22 QR contact block with gold contacts, with coupling, without lamp socket, spring-type terminals, 1 NO		1.20.125.102/0000	2 - 132
Contact block with coupling, gold contacts, RJ 12 connector, 1 NO, without LED		1.20.128.002/0000	2 - 135
Fixing spanner for ring nut and front ring		5.05.800.062/0000	5 - 21

For other contact blocks, refer to the chapter "Contact blocks"; for additional accessories, refer to "RAFIX 22 QR special accessories".

RAFIX 22 QR emergency stop pushbutton, dupe-proof to EN 418

2

General data

The emergency stop pushbuttons comply with IEC 60 204, IEC 60 073, IEC 60 947 and VDE 0113 Part 1. They are designed dupe-proof according to EN 418 with a positive mechanical movement sequence. A certain operating force must be exerted at the action point in order to prevent inadvertent operation. The pushbutton latches when pressed. The special shape of the actuator prevents the emergency stop pushbutton from being blocked. This means that the emergency stop process - once initiated - cannot be impeded by any jamming objects.

Technical data

RAFIX 22 QR

NEW

RAFIX 22 QR contact blocks AS-Interface, standard

2

General data

The AS-Interface standard contact block is a slave with 2 input / 1 output lines for the AS-I fieldbus system. It is designed for the extended address range and meets the AS-I profile S-B.A.B.E (2 inputs / 2 outputs). Some versions offer an additional overload- and short-circuit-proof output for connection and control of an external LED or buzzer. Both outputs can reduce the rated current to 50%, 25% or 12.5%, so a dimming function can be realized. More information / detailed manual on request.

RAFIX 22 QR

NEW

RAFIX 22 QR contact blocks AS-Interface, E-stop, Safety at Work

2

General data

The AS-Interface E-stop contact block is a slave for the AS-I fieldbus system. It is designed for the standard address range and meets the AS-I profile S-7.B.E (safety slave with max. 4 input / 4 output lines). Up to 30 of these contact blocks can be linked to one AS-I line, the 31. member is a safety monitor. The four (safe) input lines are used for the safe transfer of the E-stop switching position signal. The (not safe) output line is used to control the lamp in the E-stop or for an external signal lamp (option). The coupling contact is an additional safety feature. It supervises the coupling between E-stop actuator and contact block and informs the AS-I bus, when this connection is interrupted.

22 QR

Degree of protection: Rigid PVC: IP 40, adhesive foil: IP65.

General data

RAFIX 22 FS control component range

- For a mounting hole diameter of 22.3 mm to IEC 60947
- Contact blocks with gold or silver contacts
- Depth behind panel only 9.2 mm
- Water-jet proof IP65
- 2 collar shapes
- The contact blocks can be combined with other components on the same PCB.
- Contact blocks with quick connectors on request

The specified data apply only if actuators/signal indicators are combined with contact blocks and lamp sockets within the same product range.

Ring nut	2 - 183
LED base for signal indicators	2 - 183
Plastic frontring protection cap	2 - 184
Control components	2 - 153

The new RAFIX 22 FS control component range **can be combined on a common printed circuit board together with short-travel keys and other components thanks to its extremely small mounting depth of 9.2 mm.**

2

The actuators and signal indicators are fastened to the front panel with a threaded ring in a 22.3 mm panel cut-out to IEC 60947. The cast-on collar seal made of thermoflex and an integrated special membrane provide a water-jet proof degree of protection IP 65 to DIN.

The contact blocks are soldered onto the PCB. Illumination of the actuator is provided by a 3 mm LED inserted into the base of the contact block and soldered to the PCB together with the contact block.

RAFIX 22 FS

The printed circuit board is fastened to the front panel with bolts, with the contact blocks sliding almost completely into the actuators. In this way an extremely low profile is achieved. Additional advantages: Individual wiring is made unnecessary and there is no more need for a cut-out in the PCB in the control component areas.

Combined with short-travel keys

The actuators of the RAFIX 22FS system are suited for integration into low-profile data entry systems. The small mounting depth and the PCB solder terminals make it possible to combine the contact blocks with RAFI short-travel keys RACON 8 an 12, RF 15 and RF 19 as well as KN 19 on one and the same printed circuit board.

Illumination

RAFIX 22 FS pushbuttons, selector switches and emergency stop buttons are also available as illuminated versions. For illumination, we recommend to use the superbright 3 mm LED in the colour matching the lens. The LED are fitted into the contact block and soldered together with it. The signal indicators are als illuminated with superbright LED soldered directly onto the printed circuit board. In order to ensure full illumination, the LED must be mounted on a base. Bases are available as accessories.

Sealed against moisture and dirt

O-ring seal

The O-ring seals the space between the lens and the actuator. The cast-on collar seal cannot be lost or distorted during assembly. During assembly, the actuator is held in the mounting hole by the cast-on seal and can then be fixed by screwing from the rear.

The special membrane seal safely prevents moisture, oil or dust from reaching the contact block. In contrast with seals sliding up and down along the shaft, the special membrane seal is arranged in a fixed position on the housing. In this way, RAFIX 22 FS guarentees switching reliability for the full service life (degree of protection IP65 to DIN).

Numerous design options for individual panels

RAFIX 22 FS is available with many options. Various lens and frontring combinations offer nearly unlimited design options for your panels. RAFIX 22 FS ist available both with a round or a square collar. The square version can be arranged one collar to the next just as an integral keypad.

2

View on front side of front panel

Panel cut-out to IEC 60947

All actuators are provided with a locating pip.

With a grid spacing of 30 mm, the collars of the square actuators are arranged next to each other without a space in between. We recommend to use this grid spacing also for the round collar shapes (IEC 60947).

Assembly indication

The mismatch of actuators and contact blocks must be in a range of ± 0.2 mm.

Please note: The placements of the contact blocks on the PCB are always conform to the placements of the actuators on the front panel.

The drawings beside are showing upright locating pips of the actuators. If the actuators shall be rotated, the contact blocks have to be rotated similarly.

Hole patterns PCB, view on component side

NO contacts
(on version with 2 NC's, NC contacts)

Locating pip 2*

LED anode

NC contacts
(on version with 2 NO's, NO contacts)

* For better distinction the locating pip 2 has a bigger diameter than pip 1. In order to ease the mounting, the positions are additionally marked on the upper side of the housing.

General data

The illuminated selector switches are provided with translucent handle markings. These are opaque on the non-illuminated versions.

Technical data

General information

Actuator handle
 Marking of handle translucent/opaque white
 Colour of front ring see order block
 Form of collar see order block

Dimensions

Length of collar see order block
 Width of collar see order block
 Overall height 22.24 mm
 Mounting depth 9.2 mm
 Mounting hole 22.3 mm
 Key grid 30 x 30 mm
 Diameter of collar see order block

Mechanical design

Mounting ring nut
 Contact function see order block
 Illuminability yes
 Rotating angle see order block

Mechanical characteristics

Torque max. 1.5 Nm

Other specifications

Operating life 0.5 million momentary/
 0.5 million latching
 Degree of protection from front side IP65
 Ambient temp. operating min. -25 °C
 Ambient temp. operating max. +70 °C
 Storage temperature min. -40 °C
 Storage temperature max. +80 °C
 Resistance to constant environment IEC 600 68-2-3 and 2-30
 Resistance at variable environment IEC 600 68-2-14 and 2-33

RAFIX 22 FS emergency stop pushbutton

2

General data

The emergency stop pushbuttons comply with IEC 60 204, IEC 60 073, IEC 60 947 and VDE 0113 Part 1. They are designed dupe-proof according to EN 418 with a positive mechanical movement sequence. A certain operating force must be exerted at the action point in order to prevent inadvertent operation. The pushbutton latches when pressed. The special shape of the actuator prevents the emergency stop pushbutton from being blocked. This means that the emergency stop process - once initiated - cannot be impeded by any jamming objects. Only use contact block 1.20.126.4xx.

Technical data

General information

Form of lens	conical mushroom form
Colour of lens	red
Form of collar	round

Dimensions

Mushroom Diameter	30 mm
Overall height	see order block
Mounting depth	see order block
Mounting hole	see order block
Key grid	30 x 30 mm
Diameter of collar	see order block

Mechanical design

Mounting	ring nut
Contact function	latching
Illuminability	see order block
Reset	see order block

Mechanical characteristics

Robustness min.	100 N
-----------------	-------

Other specifications

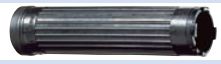

Ambient temp. operating min.	-25 °C
Ambient temp. operating max.	+70 °C
Approvals acc. to IEC	60947-5-x, 60204, 60073, 601058
Approvals, other	pending: UL 508, CSA, cURus (UL + CSA)
Robustness	according to IEC 600 68-2-3 and 2-30 50000
Operating life	
Degree of protection from front side	IP65
Storage temperature min.	-40 °C
Storage temperature max.	+80 °C
Resistance to constant environment	IEC 600 68-2-3 and 2-30
Resistance at variable environment	IEC 600 68-2-14 and 2-33

RAFIX 22 FS contact blocks with gold contacts

Pict.: Universal contact block, 1 NC + 1 NO, gold contacts Emergency stop contact block, gold contacts, 2 NC

2

General data

Illumination information:

The contact blocks are suitable for use with illuminated actuators: Insert the desired LED into the integrated LED base and subsequently solder it together with the contact block.

We strongly recommend using the Rafi superbright LED since this ensures homogeneous illumination.
