

Datasheet: 84-7111/2/4/5/6/ Lens and Diffuser Set

Description:

White translucent lens holder and set of coloured plastic lenses in;red, yellow, green, blue and clear. Assembled lens is level with the bezel when fitted.
Suitable for Series 84 PCB mount halo illuminated switches.

Assembly:

Decide on the lens colour required and screw the selected lens on to the translucent lens holder. A marking foil for switch legends (not supplied) can be fitted between the lens holder and the lens. Once assembled fit the lens into the switch actuator.
Once fitted the lens can not be removed without disassembling the switch.

Specifications:

Material of Lens

Polycarbonate (PC), as per UL 94 V2
