LS9Q

- Innovative QWERTY keypad design delivers faster text entry and label design for enhanced productivity
- Economical identification system provides premium quality solutions at the lowest installed cost
- Cut-to-length functionality eliminates label waste and label trimming labor
- Partial cut feature available to provide tear-apart strips of labels or individual cut labels for application flexibility and quicker installation
- P1™ Label Cassette contains an integrated memory device for automatic formatting, recall of last legend used, and number of labels remaining in the cassette to increase reliability and productivity
- Legends can be easily aligned with ports on patch panels and faceplates, eliminating the need for manual spacing and guesswork for improved efficiency
- Prints a wide variety of continuous tapes for marking of wires/cables, patch panels, faceplates, safety/facility identification and other network and electrical applications
- Prints continuous military and commercial grade heat shrink tubing for improved printer versatility
- Fast loading label cassette includes both label material and ribbon for easy label changeover
