Solder Wire

DURATOOL

Features:

- Solder on a dispenser is 60/40 (22SWG).
- The dispensers delivers the solder in a much more manageable quantity, thus making it easier to use.
- The dispensers deliver the 60/40 in 6m length.

Handling and use Precautions:

Use these products in a well ventilated area. Fumes evolved during soldering should be extracted away from the operator.
Avoid inhaling fumes during soldering.
Wash hands thoroughly with soap and warm water after handling solder, particularly before eating and drinking or smoking.
