

# SPECIALIST SERVICES

## INDUSTRIAL & TRANSIT CASES

The cases in our aluminium faced Midflight range are all suitable for personal handling and most airlines will accept them as meeting IATA "On board" cabin baggage recommendations (sum of dimensions is 115cm). All have quality fittings, are foam lined and, are supplied with a shoulder strap as standard.

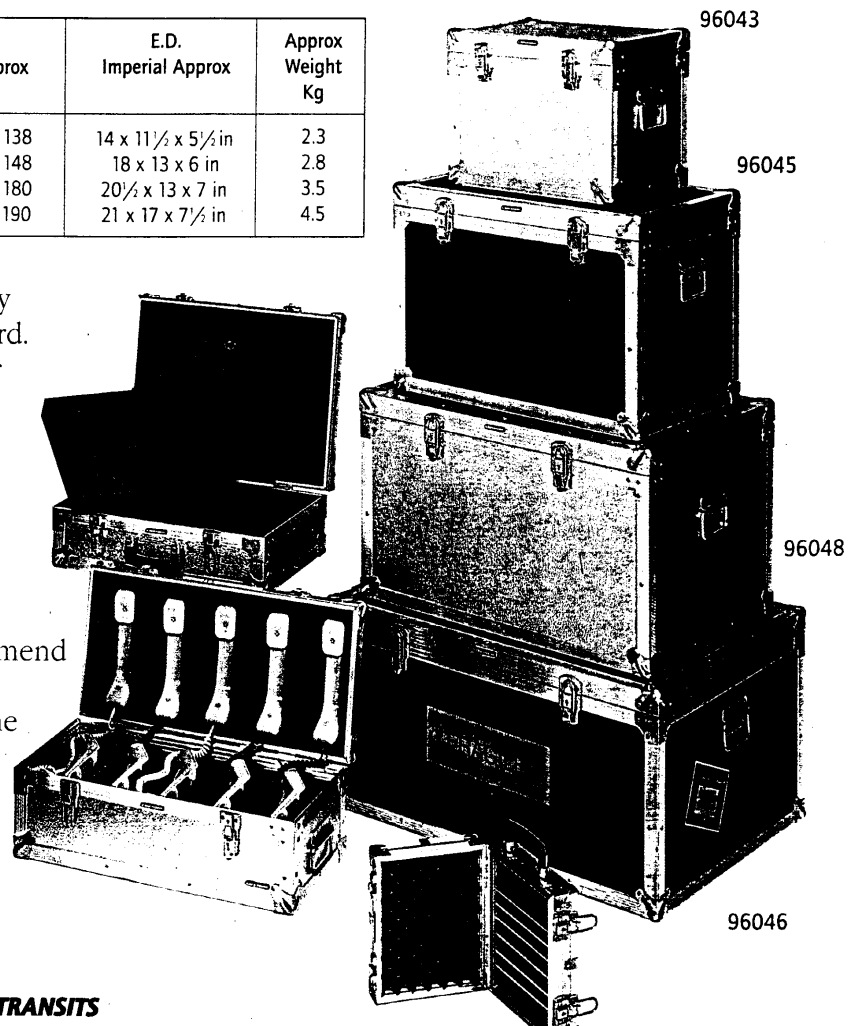

### MIDFLIGHTS

Description	Computer Code	Colour	E.D. Metric Approx	E.D. Imperial Approx	Approx Weight Kg
36CM Midflight	96020	Silver	365 x 290 x 138	14 x 11½ x 5½ in	2.3
45CM Midflight	96021	Silver	458 x 340 x 148	18 x 13 x 6 in	2.8
52CM Midflight	96022	Silver	522 x 339 x 180	20½ x 13 x 7 in	3.5
54CM Midflight	96023	Silver	536 x 431 x 190	21 x 17 x 7½ in	4.5

Six sizes of aluminium faced heavy duty transit cases are now stocked as standard. Lined with rigid foam they are ideal for transporting heavy or expensive equipment. We also offer a complete specials service, including interior fabrication to house your equipment. Make sure it arrives there, as it leaves you - intact.

Should you wish to send equipment by international carriers, we would recommend **FULL FLIGHT** aluminium transits. These are extremely robust and offer the added security of recessed handles and locks.

We would be pleased to quote upon request.

### H.D. TRANSITS

Description	Computer Code	E.D. Metric	E.D. Imperial	Weight Kg.
Aluminium Transit Size 1	96043	400 x 300 x 300	15¾ x 12 x 12 in	5.2
Aluminium Transit Size 2	96044	600 x 400 x 300	23¾ x 15¾ x 12 in	2.8
