

Pickup Tool

Pen Style

Features:

- PEN-VAC is the only pumpless vacuum pickup available.
- It is totally self-contained and requires no vacuum pump, tubes or separate attachments, making it ideal for carrying around the factory for field service applications.
- Red high temperature cups.
- Lightweight, compact.
- Lifts up to 50g.
- Range to suit every application.

PEN-VAC Original:

PEN-VAC 5 5/4 inches long with integral storage component for vacuum tips and cups, complete with six assembled probes and cups (three straight with large, medium and small cups, three angled with large, medium and small cups) or only one pair of probes (straight and angled) with the required cup size.

LMS-D PEN-VAC Deluxe:

As above with complete set of probes and cups and with the addition of a clear plastic box with all components individually displayed.

LMS-ESD PEN-VAC Static Safe:

As PEN-VAC original in a static safe version supplied with complete set of conductive probes and black ESD safe cups. All relevant parts are conductive or non-static generating.

The PEN-VAC Range:

Vacuum Cups:

Vacuum cups are available in a variety of materials.

They are all high temperature and can handle 260°C for up to one minute.

All variants are available in three standard sizes 1/8 inches (3.17mm), 1/4 inches (6.35mm) and 3/8 inches (9.52mm).
