

306TX

The 306TX is an unmanaged six port Industrial Ethernet Switch. It is housed in a ruggedized DIN-RAIL enclosure, and is designed for use in industrial data acquisition, control, and Ethernet I/O applications.

PRODUCT FEATURES

- Compact Size, Smaller Footprint
- Full IEEE 802.3 and 1613 Compliance
- NEMA TS1/TS2 Compliance
- American Bureau of Shipping (ABS Type Approval
- **Extended Environmental Specifications**
- Six 10/100 BaseTX RJ-45 Ports
- Supports Full/Half Duplex Operation
- LED Link/Activity Status Indication
- Store-and-forward Technology
- Auto Senses Speed and Flow Control
- MDIX Auto Cable Sensing (RJ-45)
- Rugged Industrial DIN-RAIL Enclosure

to solve the most demanding industrial communications requirements while providing high throughput and minimum downtime.

The 306TX provides six RJ-45 auto sensing 10/100BaseTX ports. All ports are full/half duplex capable, using "state of The unique compact size provides a smaller footprint, the art" Ethernet switching technology. The 306TX autonegotiates the speed and flow control capabilities of the TX copper port connection, and configures itself automatically.

Since the 306TX is auto sensing, there will be no need to make extensive wiring changes if upgrades are made to the host commputers, plant systems, or Ethernet I/O modules. The activity of each port, as well as power on/off status. switching fabric simply scales up or down automatically to match your specific network environment.

The 306TX supports up to 4,000 MAC addresses, thus enabling these products to support extremely sophisticated and complex network architectures.

The *N-TRON 306TX* is an ideal candidate for upgrading existing hubs and repeaters to increase bandwidth and determinism by virtually eliminating network collisions. The product also keep the network affordable, while maintaining the plug & play simplicity of the unmanaged hub.

to bring data acquisition and control network connections back and improve system reliability.

The *N-TRON*[™] 306TX Industrial Network Switch is designed to a climate controlled environment. The 306TX has extended operating environmental specifications to meet the harsh needs of the industrial environment. For cost savings and convenience the network switch can be DIN-RAIL mounted alongside Ethernet I/O or other Industrial Equipment.

> conserving space in the most critical dimension. In addition, as with other DIN-RAIL devices, the 306TX can be panel

> To increase reliability, the *306TX* contains redundant power inputs. LED's are provided to display the link status and

N-VIEW OPC PORT MONITORING OPTION

The N-TRON N-View OLE for Process Control (OPC) Server Software can be combined with popular HMI software packages to add network traffic monitoring, trending and alarming to any application using N-TRON switches configured with the N-View option. *N-TRON's* N-View OPC Server collects 45 different traffic variables per port and 5 system level variables per switch. This information can provide a complete overview of the network load, service quality, and packet traffic. OPC client software can use The 306TX can simplify plant wiring by eliminating the need N-View OPC Server data to resolve network problems quickly

306TX

BENEFITS

Industrial Network Switch

- Compact Size, Smaller Footprint
- High Reliability/Availability
- Extended Environmental Specifications
- Ruggedized DIN-RAIL Enclosure
- High Performance
- High MTBF >2M Hours (measured)

Ease of Use

- Plug & Play Operation
- Six Auto Sensing 10/100BaseTX RJ-45 Ports
- Auto Sensing Duplex, Speed, and Cable Type
- Unmanaged Operation
- Compact DIN-RAIL Package

Increased Performance

- Full Wire Speed Capable
- Full Duplex Capable
- Eliminates Network Collisions
- Increases Network Determinism
- N-View Switch Viewing Option

Ordering Information

306TX Six 10/100BaseTX Ports 306TX-N with N-View Firmware Option

SPECIFICATIONS

Physical

 Height:
 3.1"
 (7.874 cm)

 Width:
 2.0"
 (5.08 cm)

 Depth:
 3.4"
 (8.636 cm)

 Weight:
 0.75 lbs
 (0.3 kg)

Electrical

Input Voltage: 10-30 VDC Input Current: 250 mA@24V

Inrush: 8.0Amp/0.6ms@24V

Environmental

Operating Temperature: -20°C to 70°C Storage Temperature: -40°C to 85°C Operating Humidity: 10% to 95%

(Non Condensing)

Operating Altitude: 0 to 10,000 ft.

Shock and Vibration (bulkhead mounting)

Shock: 200g @ 10ms

Vibration/Seismic: 50g, 5-200Hz, Triaxial

Network Media

10BaseT: >Cat3 Cable 100BaseTX: >Cat5 Cable

Connectors

10/100BaseTX: Six (6) RJ-45 TX Pors

Recommended Wiring Clearance

Front: 4" (10.16 cm) Top: 1" (2.54 cm)

Regulatory Approvals

FCC Part 15 Class A UL 1604 (US and Canada)

CLASS I, DIV 2, GROUPS A,B,C,D,T4A

CE: EN61000-6-2,4, EN55011, EN61000-4-2,3,4,5,6
