## Dear Customer

Welcome to the JOJO Product Catalogue. JOJO is one of the leading suppliers of electrical products in the UK. Over the last 3 decades, JOJO has developed a comprehensive range of products under the banner 'Delivering power where you need it'.

Working with electricity, JOJO has always made quality a priority. All our products are tested and certified by accredited testing authorities. All goods are designed and manufactured to the latest BS and EN standards.

Packaging plays a key factor in the presentation of JOJO products. Striking designs coupled with innovative packaging concepts not only demonstrate the features of the product but also catch the attention of the consumer at POS.

The range includes Cable Reels and Trailing Leads; Wiring Accessories; Lighting and Safety Products. Many of our products reflect our Danish heritage. Cable Reels are aesthetically designed and yet practical. The Ultraslim is the most compact trailing lead in the UK has been designed to be discreet and compact. Providing 4 or 6 sockets, it tucks away neatly behind any desk or Hi-Fi cabinet. Whether decorating, working under floorboards or in the loft, Flexlight provides a safe cool light without hindering on the user.

We have just launched the option of a Safety Cut-Out feature on all our cable reels. The cut-out provides extra protection in case of a fault or over-loading. Another industry first.

Thank you for taking the time to look at our new catalogue. We are confident in our ability to give you and your customer quality products, delivered on time and at competitive prices.

**Tony Lambe**  
JOJO Managing Director

JOJO is located in the UK, Denmark, Sweden and Finland and is part of Schneider Electric, a world leader in the manufacture of domestic and commercial electrical distribution equipment.

# Cable Reels

**Safety Cut-Out**  
In the event of an overload, the cut-out will trip and terminate power to the connected appliances.  
Simply disconnect all appliances, press the reset button and reconnect the appliances ensuring you have calculated the maximum power input/wattage correctly.  
Don't forget, THE RATING OF THE CABLE REEL IS SIGNIFICANTLY REDUCED WHEN FULLY WOUND

The JOJO range includes a cable reel for every application: cassette type reels for around the home; larger semi-closed reels to help keep the cable tidy; traditional open reels are simple and functional.

JOJO cable reels are manufactured to the highest quality standards. All 240V reels carry the prestigious and easily recognised BSI Kitemark.

JOJO are pioneering the introduction of safety cut-outs on all cable reels in accordance with BS EN 61242.

Smart designs and innovative packaging make JOJO cable reels the first choice:-

### Shelf Merchandiser Boxes

All our most popular cable reels are available in merchandisers of 5-8 reels. Designed for Point of sale and yet tough enough for transportation.

### Caddies

The JOJO caddy helps to display the reel in-store and also doubles up as a storage solution. On the reverse is a simple product selector which enables the customer to choose the right reel for the application.

## Extension Leads

**Surge & Spike**  
Protect your Hi-Fi, TV and Computer equipment from power surges and spikes. Surge and Spike extension leads protect your appliances by absorbing/smoothing any variations in power supply.

Each year we introduce more and more appliances into our homes. Sometimes there are simply too few sockets or they are positioned in the wrong location for the appliance.

JOJO offer a comprehensive range of extension leads, from a single socket of 5 metres, up to our latest 8 socket 2 metre lead incorporating current overload protection, switch and power indicator, all manufactured to the highest standards and including many innovative features.

Heavy-duty

Ultraslim

**Technical Note**  
All our trailing leads come with 1.25m PVC cable and are rated at 13 Amps.

Ultraslim

## Outdoor Accessories

### OUTDOOR SOCKET & SWITCHES

The use of electrical products outdoors, both for gardening and now increasingly, leisure applications, has created a new market for specialised outdoor wiring accessories.

Weatherproof to IP56, the range is suitable for permanent installations such as lighting, pond pumps and fountains as well as providing power for a host of familiar outdoor accessories such as mowers, trimmers, hedge trimmers and power washers.

Outdoor accessories

- Ideal for DIY installation, full instructions included
- Packed in hanging clam packs

Product Code	Description	Product Colour	Packaging Style	Pack Qty	Min Qty	Barcode	Suggested Retail Price Each (ex VAT)	Retail Price
