

Elite SC and Accessories

**The cabinet that's  
big enough to house  
your LAN equipment  
and act as a standalone  
data center!**

## FEATURES

- » No assembly required.
- » Extra wide (48") and extra deep (32") for accommodating servers and other large equipment.
- » Includes two stationary shelves with a 300-lb. (136.1-kg) capacity each.
- » PLEXIGLAS front doors and vented rear doors have 3-point lock and latch.
- » Top panel has cable-management punch-outs, plus vented slots for extra cooling.
- » Constructed with a rugged 14-gauge folded-steel frame.

## OVERVIEW

The *Elite SC and Accessories* provide everything you need for a complete data-center setup.

The Elite SC is a double-wide cabinet constructed of a rugged 14-gauge folded-steel frame. It can hold up to 700 pounds (317.5 kg) of equipment. The cabinet comes preassembled, so it's easy to set up and use. Cabinet components include: fully louvered rear door, one pair of solid lift-off side panels, one 16-position power strip with circuit breaker and 12-ft. (3.7-m) cord, a PLEXIGLAS® front door, two stationary shelves (300-pound capacity each), rubber feet, and leveling glides. Cabinet measurements are 72"H x 48"W x 32"D (182.9 x 121.9 x 81.3 cm). Additional features include:

- Top panel has cable-management punch-outs, plus vented slots for extra cooling.
- Extra wide (48") and extra deep (32") for accommodating servers and other large equipment.
- PLEXIGLAS front doors and vented rear doors have three-point latch and lock.
- Also available is the Elite SC with Installed Dual 19" EIA Mounting Kit, 39U (RF199A-RKMT or RF299A-RKMT). This version of the cabinet includes 19" EIA mounting rails that fit side by side in the cabinet. Eight mounting rails are provided, and the rails are adjustable in one-inch horizontal increments. Use the rails for two- or four-point equipment mounting. The mounting kit also increases the weight capacity of the cabinet from 700 pounds (317.5 kg) to 1000 pounds (453.6 kg). Best of all, when you order the RF199A-RKMT or RF299A-RKMT, we'll install the Rackmount Kit in your Elite SC! (Please note that the Elite SC with Dual Mounting Kit does not include stationary shelves.)

## 19" EIA Rackmount Kit, 5U

This is the perfect accessory for racking only a few patch panels or hubs. This kit gives you an extra 5U for equipment. The kit includes: (1) 23.5"D stationary shelf, (2) mounting tabs, (2) rails, (1) support bar, (16) #12-24 screws, and (8) #10 washers.

### Shelves

Two types of shelves are available: a stationary shelf and a sliding keyboard shelf. The stationary shelf is 44.75"W x 23.5"D (113.7 x 59.7 cm) and holds up to 300 pounds (136.1 kg). The sliding keyboard shelf is 42.5"W x 21.5"D (108 x 54.6 cm) and holds up to 35 pounds (15.9 kg). Pull it out when you need to work. Slide it back in for storage.

### Sliding Keyboard Trays

These trays give you either two or four vertically stacked keyboard trays to use with multiple keyboards. Just pull out the one you need. Trays measure 19.5"W x 15.56"D (49.5 x 39.52 cm) and include 16" slides, brackets, and one stationary shelf.

### Cable Management

Keep your cable organized with optional vertical or horizontal cable-management bars. Horizontal models include 4 cable rings; vertical models include 6 cable rings.

### Fan Assembly and Caster

This panel of three fans with guards exhausts warm air and cools equipment in your cabinet. Each fan moves air at 75 cfm. Casters provide mobility.

RF300A

## TECH SPECS

Door Opening — Interior: 67"  
 Hole to Hole Centers — Interior: 44.124"  
 Height — Exterior: 72"  
 Width — Interior: 43.75"; Exterior: 48"

 With Dual 19" EIA Mounting Kit: 1000 lb. (453.6 kg)  
 Weight (Shipping) — 600 lb. (272.2 kg)

### Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application. Don't waste time and money—call Black Box today.
