

Pure Networking Media Converters

Media converters for every
twisted-pair to fiber optic
connection you can imagine —
at an incredibly affordable price!

FEATURES

- » Extremely affordable media conversion!
- » Wide variety of interfaces available for half- or full-duplex operation.
- » Compatible power supplies available for the United States, Europe, the United Kingdom, Australia, and Japan.
- » Most models don't need to be used in pairs.
- » FREE 24/7/365 Tech Support.

Use the 10-/100-Mbps Twisted-Pair to 100BASE-FX Fiber Optic Media Converter to convert from UTP to fiber.

Connect a 10BASE-T network and a 10BASE-FL device via a 10BASE-T to 10BASE-FL Converter.

Use a 100BASE-TX to 100BASE-FX Media Converter Transmitter and Receiver to connect a LAN switch and a network server over one strand of single-mode fiber optic cable.

OVERVIEW

No tech's tool kit is complete without a handful of Pure Networking™ Media Converters from Black Box. At our low prices, there's no reason not to have a stockpile of them on hand.

These basic media converters feature a sturdy, solid construction. And their dependability makes them one of Tech Support's favorite products.

Our Pure Networking Media Converters cover a wide range of interfaces. The guide on **page 4** will help you select the media converter that's right for your application. Available models include:

10-Mbps Twisted Pair to 10-Mbps Fiber Optic

- 10BASE-T to 10BASE-FL Media Converter (LE1605A-ST, LE1606A-SC)

10/100-Mbps Twisted Pair to 100-Mbps Fiber Optic

- 10BASE-T/100BASE-TX to 100BASE-FX Media Converter (LH1706A-SC or LH1706A-ST, LH1707A-SC, LH1708A-SC)

100-Mbps Twisted Pair to 100-Mbps Fiber Optic

- 100BASE-TX to 100BASE-FX Media Converter (LH1700A-SC or LH1700A-ST, LH1701A-SC, LH1702A-SC)

100-Mbps Twisted Pair to 100-Mbps Single-Strand Fiber Optic

- 100BASE-TX to 100BASE-FX Media Converter Transmitters and Receivers (LH1709A-SCTS, LH1710A-SCRS, LH1711A-SCTS, LH1712A-SCRS)

NOTE: Australian versions of LH1709A-SCTS and LH1710A-SCRS are not available.

1000-Mbps Twisted Pair to 1000-Mbps Fiber Optic

- 1000BASE-T to 1000BASE-SX/LX Media Converters (LGC1713A-SX-US, LGC1713A-LX-US)

Each model comes with the correct power supply for your country. Choose the media converter that's right for your application (see the Buyer's Guide on **page 4**). This chart compares the features of the available models. Nearly all models listed are available in a version for your country (United States, Europe, United Kingdom, Australia, or Japan). For specific codes, see **page 6**.

If you have any additional questions about the converters, Tech Support is only a phone call away.

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application. Don't waste time and money—call Black Box today.
