

# P-touch 1000

### Longer Lasting Labels

Brother's unique, patented TZ tapes are designed to be extra hard wearing. Tests have shown that these scratch-proof labels can withstand heavy abrasion, electrical resistance and lengthy exposure to chemicals, sunlight, water and extreme temperatures from -50°C to 300°C. Brother laminated tapes consist of six layers of materials, resulting in a thin, extremely strong label. Characters formed with thermal transfer ink are actually printed onto the underside of the laminate. Sandwiched between two layers of PET (polyester film) this lets you create characters that are virtually indestructible.

### Brother Laminate Tape Construction

LAMINATED BROTHER TAPES WITH PATENTED BROTHER UNDER-TAPE PRINTING

Electronic labelling system

Brother | P-touch 1000

Always at your side

**The P-touch 1000 from Brother.**

An easy-to-use, hand-held labelling machine for the office or home, that produces a wide variety of professional quality labels made to last. It's the P-touch 1000 electronic labelling system from Brother.

**Organising your world has never been easier**

Whether you'd like to organise your workplace or simply sort things out around the home, it shouldn't be complicated. With the P-touch 1000 you just key in the word or number, choose the style, and then print. With Brother's professional quality TZ tapes you know these are labels that will last.

The P-touch 1000 is ideal for creating labels for any of the following:

**Always at your side**

- FILES AND FOLDERS
- CDS AND STATIONERY
- COMPUTER EQUIPMENT
- TOOLS AND GARDENING EQUIPMENT
- CLOTHING
- HOBBIES AND DIY

**Printing that puts you in control**

- Large printing area makes every label easier to read and printing on two lines means you can include as much detail as you'd like
- Choose from two different font styles **Oklahoma** **Helsinki**
- Choose up to ten different type styles plus framing and underlining
- Access over 50 symbols by pressing the symbol key € @ % © → <

**Long lasting labels that always look good**

If you label something, you want the label to look good and to last. Brother's TZ labels are specifically designed to be hardwearing

- P-touch labels are ideal for use both inside and outside in all weather conditions. They are able to withstand temperatures from -50°C to 300°C, this means the labels are resistant to freezing conditions and direct sunlight so they won't fade.
- Available in a range of colours

As well as durable TZ tape, the range also includes the following tapes:

- Strong Adhesive Tape** - gives improved adhesion for those even more demanding applications and environments. In tests, this tape has shown improved performance on materials including stainless steel, glass, PVC, acrylic, polypropylene and polyester-coated wood
- Fabric Iron-On Tape** - produces washable cloth labels that can be attached onto various fabrics by using an iron. This tape is ideal for labelling uniforms, work wear, bedding and table cloths
