

The Virtually Indestructible Keyboard™

These Virtually Indestructible Keyboards are made from a silicon based material which is impervious to water, coffee, cleaning solutions, crumbs etc. and can easily be washed clean and disinfected. Its flexible design even allows it to be rolled up for carrying with a notebook computer.

- The flat design reduces 'negative angle' wrist stress
 - Durable with a soft, comfortable feel
 - Silent key operation
 - US layout
 - USB 1.1 interface (105 key comes with a PS2 adaptor)
 - Dimensions (HxWxD): 105 Key - 12x493x136mm, 85 Key - 10x305x178mm
- Contents: Keyboard, PS2 adaptor (105 key only) and user guide
