Super WriteMaster™ Slim External DVD Writer

USB Powered / Netbook booting support / Windows 7 & MAC compatible / Eco-Product

SE-S084

Enjoy the AV connectivity!

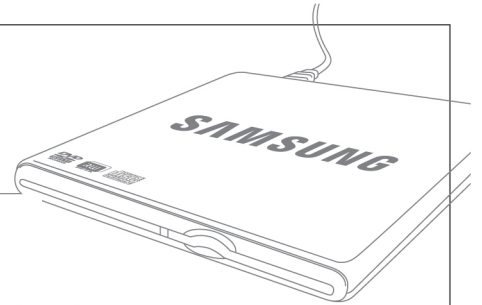

AV devices such as TV are available for multimedia files on your disc by connecting SE-S084D via USB cable.
 SE-S084D is not only for storage but also for multimedia!!

- ※ However, the AV devices need to support the ability to play multimedia files and you can check details through the product manual or website.
- ※ Due to compatibility issue and power insufficiency of some AV devices, may not work and AV devices that support the external HDD are recommended.

iF design award winner

Featuring a sleek design with a stylish metallic centerline, the new SE-S084D has won the iF Product Award Design, which is one of the world's top three leading design awards, sponsored out of Hannover, Germany. The SE-S084D features a rounded shape and compact size that is 20% smaller than conventional DVD writers.

Touch eject button

- The first Touch Eject function in ODD Product.
- Stylish and convenient touch type button was introduced.
- Do not push anymore. Just touch softly.
