

# WD Scorpio® Blue™ 2.5-inch Hard Drives

Massive Capacity  
Low Power Consumption  
Ultra-cool and Quiet

## Big Capacity for Portable Computing.

WD Scorpio Blue 5400 RPM 2.5-inch SATA and EIDE hard drives from Western Digital deliver lightning-fast and ultra-quiet performance hand-in-hand with low power consumption. In addition, these hard drives are designed with ruggedness, reliability, and data-protection features that actively watch over valuable data. Capacities range from 40 to 320 GB.

Ideal for portable digital devices of all kinds, including notebook computers, external storage, and digital media players.

- **Massive capacity** – Whether they are in an external drive or a notebook computer, 320 GB WD Scorpio Blue 2.5-inch drives offer the most available capacity for space-hungry operating systems like Windows Vista™, plus plenty of room left over for photos, music, and video.
- **Quiet** – In a notebook drive, silence is golden. WD's exclusive WhisperDrive™ combines state-of-the-art seeking algorithms to yield one of the quietest 2.5-inch hard drives on the market. These algorithms also optimize the way a drive seeks for data, which significantly improves power consumption. So now silence (and longer battery life) is golden.
- **Reliable and Rugged** – WD's ShockGuard™ technology protects the drive mechanics and platter surfaces from shocks. WD's SecurePark™ parks the recording heads off the disk surface during spin up, spin down and when the drive is off. This ensures the recording head never touches the disk surface resulting in improved long term reliability due to less head wear, and improved non-operational shock tolerance.
