

type : INVC196

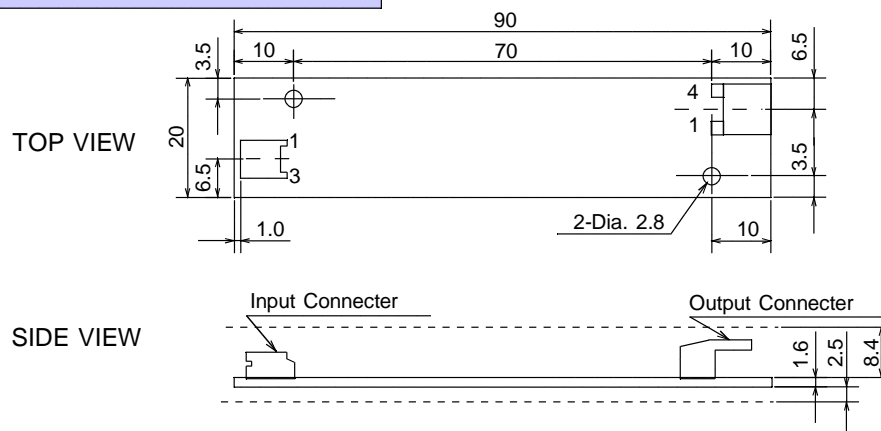

Features

- 1)Very small and low power consumption design.
- 2)Backlight ON or OFF can be controlled by outer signal.

Uses

- 1)Inverter for small size Backlight on LCD's(for example 320X240 dots class) and application for Telephone with various functions, Facsimile and Copy machine.
- 2)Electrical characteristics are set for HITACHI SP14Q***,but be possible to set another LCD Module.Please inquire to the following.

Structure and Dimensions

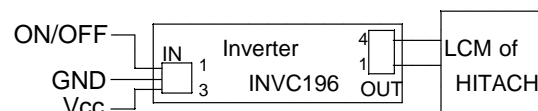

Electrical characteristics

Type	Input voltage[V]	Input Current(A)	Output Current(mA)	Suitable LCM
INVC196	5+/-10%	0.36 typ	5.0 typ	SP14Q***

Wiring

ON/OFF signal level	Open	Low
Mode	Lamp OFF	Lamp ON

Input and Output connector

	Maker	Type
Input connector	JST	PHR-3
Output connector	JAE	IL-G-4S
