

Midget Flange Relampable Indicator Lights

DESCRIPTION AND FEATURES

The Chicago Miniature Lamp Midget Flange Indicator Lights are versatile, industry standard, front panel indicator lights capable of accepting any T-1 3/4 midget flange base lamp. These high quality indicators provide reliable service in a vast array of commercial and military applications (conforming to ML-L-3661). Lamps are easily replaced from the front panel. These indicator lights are available in both a standard configuration and a watertight configuration providing reliable status indication in the most demanding of environments. The lamp is not included with this indicator light; please order the required lamp separately.
