

719 - 602

**CAL-110-6.**  
**(C Series Lantern.)**

The C Series combined six sided Lantern and PIR is a 60 Watt, die cast Aluminium lantern with a 110° PIR detector. The PIR has a five seconds to five minutes adjustable time setting and adjustable Lux control, this allows the user to set the level of ambient light at which the unit becomes operative on an evening. It is hardwearing, weatherproof and easy to install. The CAL-110-6 also utilizes our new Adaptive Window Technique, (AWT), which dramatically reduces false activation's caused by trees, shrubs, wind etc.

To summarize, this unit is a strong, weatherproof and an ideal solution to PIR external security lighting.

This unit is available in black, white and antique bronze.
